Version: 3.7.0 This used to pretty much be the best custom food plugin. You can create items using normal materials or player heads, set the food amount, health amount, and other effects gained from the food, make craftable recipes for them, and particle effects, and there used to be an editor that made creating foods a breeze!

Why is nutrition important for someone with advanced chronic kidney disease? A person may prevent or delay some health problems from chronic kidney disease (CKD) by eating the right foods and avoiding foods high in sodium, potassium, and phosphorus. Learning about calories, fats, proteins, and fluids is important for a person with advanced CKD.
