Students describe the book as easy to read. A key aim is context, with explanations of how pieces of doctrine fit into the bigger picture. There is also a continual effort to plug doctrine into the real world of practice, getting students to think about litigation strategy and tactics. ... He has taught torts, intellectual property, sales ...

~~Torts: Cases and Contexts Volume 2—Open Textbook Library~~

The word “ defence ” bears several meanings in the tort context and a great deal of confusion has been spawned of a general failure by courts and commentators to make their intended meaning clear. Although conventionally the word defence is used to refer to those arguments which when used persuades the court to conclude that the defendant in a case is not guilty.

As nouns the difference between context and cotext is that context is the surroundings, circumstances, environment, background or settings that determine, specify, or clarify the meaning of an event or other occurrence while cotext is the text that surrounds the node, or word of interest, in a kwic. As a verb context is (obsolete) to knit or bind together; to unite closely.

~~torts a context and practice casebook~~

Business Torts Business torts, also called "economic torts," are wrongful acts committed against business entities -- often intentional but sometimes due to negligence or recklessness -- that cause (or are likely to cause in the future) some kind of financial loss.

~~Business Torts — FindLaw~~

Defamation consists of two torts: libel and slander. The main difference between the two is the form in which the defamation occurs. Libel consists of any defamation that can be seen, most typically in writing. Slander consists of an oral defamatory communications. The elements of libel and slander are nearly identical to one another.
