The incredible workings of atoms are explored through readings, Graphic Organizers and labs. This material is tied into the study of molecules, compounds, mixtures and matter. The 3D Graphic Organizers fit together to create a perfect science fair type project to share. Labs use daily objects and make the concepts studied come alive for students. A Desktop Project is used to model common atoms, reinforcing the subatomic parts of an atom and how they change for various types of atoms. The Periodic Table is studied and used in the 3D Graphic Organizers.
