Data Structures and  
Algorithms: Aho, Alfred,  
Ullman ...

In 1974, Aho, John Hopcroft,  
and Ullman wrote the Design  
and Analysis of Computer  
Algorithms, codifying some  
of their early research on  
algorithms. This book became  
one of the most highly cited  
books in computer science  
for several decades and  
helped to stimulate the  
creation of algorithms and  
data structures as a central  
course in the computer  
science curriculum.
