“What if you set off on a vacation trip in search of history—and your destination was the men who had been president?” Asking himself that tantalizing question, bestselling author and award-winning journalist Bob Greene embarked on a long journey across the breadth of the nation, hoping to spend time with Richard Nixon, Gerald Ford, Jimmy Carter, George Bush and Ronald Reagan. The result of his odyssey is *Fraternity*. Rich with the sounds of the presidents’ own voices, *Fraternity* is dramatic, surprising, funny, revealing, inspiring, tragic, touching and unforgettable: a story destined to be read and enjoyed not just now, but far into the future as Americans think about who we are as a people. Here is Nixon, in an unmarked office high above Manhattan, explaining the reason for his solitary walks through New York streets at 5:30 every morning. Here is Carter, riding in a Secret Service van, recalling the sting of his family’s being mocked for their rural Southern heritage, even after he had won the White House. Here is Ford, beside a golf course fairway, laughing at his startled discovery that of all his presidential papers, the one worth the most on the open market was a letter from a woman who tried to kill him. Here is Bush, on the road with his son, remembering his despair and anger at encountering a swastika carved into the sand behind an elegant resort on American soil. And here is Nancy Reagan, in a Beverly Hills hotel, on the haunting first night she must stand in for her husband after the announcement of his illness. A travelogue of the national spirit that chronicles a quest stretching over fifteen years and starring the biggest names in the modern American saga, this is living history of the most human kind, and Bob Greene at his very best.

Perfect for students, history buffs, and political junkies, *The President's Fact Book* is at once an expansive collage of our nation's 45 individual presidents and a comprehensive view of American history.

Examines the lives of the offspring of the nation's chief executives, discussing such topics as their accomplishments, the tragedies that have affected them, and the impact of their fathers' legacies on their own lives.

From Abigail "Nabby" Adams to Chelsea Clinton, George Washington Adams to John F. Kennedy, Jr., the children of America's presidents have both suffered and triumphed under the watchful eyes of their powerful fathers and the glare of the ever-changing public. Whether they perished under the pressure like Andrew Johnson, upheld controversial views like Amy Carter, or carried their father's torch right back to the White House like George W. Bush, all presidential children grew up having to share their fathers with the whole of their fellow countrymen -- and, in too many instances, spent the rest of their lives in a desperate search for their own identities. In this illuminating bestseller, Washington insider Doug Wead offers an authoritative analysis of our nation's presidential offspring. Featuring lively anecdotes, photographs, short biographies, and never-before-published personal accounts, *All the Presidents' Children* is an important socio-cultural work, a groundbreaking study of American family dynamics, and an entertaining foray into the homes, hearts, and history of our forefathers.

“One of the best books on the American presidency to appear in recent years” (The Wall Street Journal) and based on a decade of research and reporting—a delightful new window into the public and private lives America’s presidents as authors. Most Americans are familiar with Abraham Lincoln’s famous words in the Gettysburg Address and the Emancipation Proclamation. Yet few can name the work that helped him win the presidency: his published collection of speeches entitled Political Debates between Hon. Abraham Lincoln and Hon. Stephen A. Douglas. Lincoln labored in secret to get his book ready for the 1860 election, tracking down newspaper transcripts, editing them carefully for fairness, and hunting for a printer who would meet his specifications. Political Debates sold fifty thousand copies—the rough equivalent of half a million books in today’s market—and it reveals something about Lincoln’s presidential ambitions. But it also reveals something about his heart and mind. When voters asked about his beliefs, Lincoln liked to point them to his book. In Craig Fehrman’s “original, illuminating, and entertaining” (Jon Meacham) work of history, the story of America’s presidents and their books opens a rich new window into presidential biography. From volumes lost to history—Calvin Coolidge’s Autobiography, which was one of the most widely discussed titles of 1929—to ones we know and love—Barack Obama’s Dreams from My Father, which was very nearly never published—Fehrman unearths countless insights about the presidents through their literary works. Presidential books have made an enormous impact on American history, catapulting their authors to the national stage and even turning key elections. Beginning with Thomas Jefferson’s Notes on the State of Virginia, the first presidential book to influence a campaign, and John Adams’s Autobiography, the first score-settling presidential memoir, Author in Chief draws on newly uncovered information—including never-before-published letters from Andrew Jackson, John F. Kennedy, and Ronald Reagan—to cast fresh light on the private drives and self-doubts that fueled our nation’s leaders. We see Teddy Roosevelt as a vulnerable first-time author, struggling to write the book that would become a classic of American history. We see Reagan painstakingly revising Where’s the Rest of Me?, and Donald Trump negotiating the deal for The Art of the Deal, the volume that made him synonymous with business savvy. Alongside each of these authors, we also glimpse the everyday Americans who read them. “If you’re a history buff, a presidential trivia aficionado, or just a lover of American literary history, this book will transfix you, inform you, and surprise you” (The Seattle Review of Books).
