Many arts based researchers combine their art with story, the art part creates moods and images combined with writing which is better at directing emotion. In many cases published words are used more to explain the art rather than enhance the emotional mood, others combine evocative pictures and words. arts based autoethnography can use evocative stories along with evocative images.

~~Autoethnography and Arts Based Research~~

Autoethnography is typically defined as an approach to research that puts the self at the center of cultural analysis. Chang (2008) asserts that autoethnography “transcends mere narration of self to engage in cultural analysis and interpretation” (p. 43).

making available new spaces of inquiry (Rolling, 2010). Arts-based research, like autoethnography, is a controversial methodology, called to task for its unreliability and often idiosyncratic and vague processes (Smith-Shank & Keifer-Boyd, 2007). On the other hand, it has been stated that arts-based research broadens traditional research paradigms,
