### **Amazon.com: Bismarck: A Life eBook: Steinberg, Jonathan ...**

Bismarck was a Junker, or Prussian squire, but one with a cold, middle-class mother. He was a dandy at university, where he befriended the American historian John Motley. He failed as a diplomat, embraced the life of a feudal farmer and – possibly with marriage in mind – became briefly a Bible-bashing evangelical.

As one contemporary noted: "the Bismarck regime was a constant orgy of scorn and abuse of mankind, collectively and individually." A brilliant study in power, this comprehensive biography brings Bismarck to life, revealing the stark contrast between the "Iron Chancellor's" unmatched political skills and his profoundly flawed human character.

### **Bismarck : A Life (Paperback) - Walmart.com - Walmart.com**

Jonathan Steinberg's 'Bismarck: A Life' fits neatly into this estimable body of work as a serious, politically detached, study...Steinberg's analysis achieves a degree of personal and political objectivity while avoiding an oversimplification of his political and governmental achievements...his purpose is neither to praise nor vilify the statesman.

### **9780199975396: Bismarck: A Life - AbeBooks - Steinberg ...**

From 1839 to 1847 Bismarck lived the ordinary life of a Prussian country squire. Subsequently he romanticized these years on the land and wondered why he had abandoned an idyllic existence for the insecurities of a life in politics. This frequently expressed nostalgia may have been more guise than reality.

Steinberg's study testifies to the inescapable dilemmas that arise from trade-offs between conciseness and comprehensiveness, but the elegant prose (though marred by poor editing on the publisher's part) and lucid argument make *Bismarck: A Life* an important contribution to the literature on the Iron Chancellor. Reminiscent of Sebastian Haffner's essayistic style in places, the narrative weaves together facts, figures, contemporary ego-documents and the author's interpretation of the evidence ...

### **Bismarck: A Life | German History | Oxford Academic**

It is a measure of Steinberg's achievement in "*Bismarck: A Life*" that the subsequent description of the "political genius of a very unusual kind" becomes far from a panegyric.

This riveting, New York Times bestselling biography illuminates the life of Otto von Bismarck, the statesman who unified Germany but who also embodied everything brutal and ruthless about Prussian culture. Jonathan Steinberg draws heavily on contemporary writings, allowing Bismarck's friends and foes to tell the story. What rises from these pages is a complex giant of a man: a hypochondriac with the constitution of an ox, a brutal tyrant who could easily shed tears, a convert to an extreme form of evangelical Protestantism who secularized schools and introduced civil divorce. Bismarck may have been in sheer ability the most intelligent man to direct a great state in modern times. His brilliance and insight dazzled his contemporaries. But all agreed there was also something demonic, diabolical, overwhelming, beyond human attributes, in Bismarck's personality. He was a kind of malignant genius who, behind the various postures, concealed an ice-cold contempt for his fellow human beings and a drive to control and rule them. As one contemporary noted: "the Bismarck regime was a constant orgy of scorn and abuse of mankind, collectively and individually." In this comprehensive and expansive biography--a brilliant study in power--Jonathan Steinberg brings Bismarck to life, revealing the stark contrast between the "Iron Chancellor's" unmatched political skills and his profoundly flawed human character.

Otto von Bismarck transformed Europe more completely than anybody in the nineteenth century, except for Napoleon. He unified, and indeed, created, the country at the center of two world wars that would transform the world. This biography illuminates the life of the statesman who unified Germany but who also embodied everything brutal and ruthless about Prussian culture. The author draws heavily on contemporary writings, allowing Bismarck's friends and foes to tell the story. Otto von Bismarck (1815–98) has gone down in history as the Iron Chancellor, a reactionary and militarist whose 1871 unification of Germany set Europe down the path of disaster to World War I. But as Volker Ullrich shows in this new edition of his accessible biography, the real Bismarck was far more complicated than the stereotype. A leading historian of nineteenth- and twentieth-century history, Ullrich demonstrates that the "Founder of the Reich" was in fact an opponent of liberal German nationalism. After the wars of 1866 and 1870, Bismarck spent the rest of his career working to preserve peace in Europe and protect the empire he had created. Despite his reputation as an enemy of socialism, he introduced comprehensive health and unemployment insurance for German workers. Far from being a "man of iron and blood," Bismarck was in fact a complex statesman who was concerned with maintaining stability and harmony far beyond Germany's newly unified borders. Comprehensive and balanced, Bismarck shows us the post-reunification value of looking anew at this monumental figure's role in European history.

\*Includes pictures \*Includes Bismarck's quotes about his life and career \*Includes online resources and a bibliography for further reading In 1832, 17 year old Otto von Bismarck had just entered university and was already rejecting the republican indoctrination of his grade school years. Unlike so many of his day who had championed representative government, Bismarck longed for the glory of a nation he believed would only be found under a single, strong leader. Though his early university days showed him he would be isolated by this thinking, he strongly believed not only in the ideal of a national German state, but in its possibility. In his memoirs, Bismarck recalls that at this young age, he "retained [his] own private National sentiments, and [his] belief that in the near future events would lead to German unity; in fact, [he] made a bet with [his] American friend Coffin that this aim would be attained in twenty years." Though it would take longer than he had predicted, Germany would eventually be united and he would be the person responsible for accomplishing it. Bismarck would go on to accomplish his goal and strengthen Germany into a modern political state by embracing specific political principles, despite their lack of popularity. Bismarck biographer Jonathan Steinberg refers to these principles as the "Prussian legacy," including "the army inherited from the 'genius King' Frederick the Great; the fusion of the Junker class with the army and the bureaucracy, the pervasive idea of 'Deinst' or service; the rigid distinction between the nobility and the bourgeoisie; [and] a military conception of honor." As "the most interesting character of the nineteenth century," Bismarck would spend his life in service of the Hohenzollern Kings, elevating William I from a Prussian King near abdication King to the first German emperor. He would alienate many along the way, but under William, he would retain what he wanted most: the power to shape Germany's future. Otto von Bismarck: The Life and Legacy of the German Empire's First Chancellor looks at the life and work of Germany's most famous politician. Along with pictures of important people, places, and events, you will learn about Otto von Bismarck like never before.

Bismarck was arguably the most important figure in 19th-century European history after 1815. In this biography, Edgar Feuchtwanger reassesses Bismarck's significance as a historical figure.

In this vivid fifty-year history of Germany from 1871-1918—which inspired events that forever changed the European continent—here is the story of the Second Reich from its violent beginnings and rise to power to its calamitous defeat in the First World War. Before 1871, Germany was not yet a nation but simply an idea. Its founder, Otto von Bismarck, had a formidable task at hand. How would he bring thirty-nine individual states under the yoke of a single Kaiser? How would he convince proud Prussians, Bavarians, and Rhinelanders to become Germans? Once united, could the young European nation wield enough power to rival the empires of Britain and France—all without destroying itself in the process? In this unique study of five decades that changed the course of modern history, Katja Hoyer tells the story of the German Empire from its violent beginnings to its calamitous defeat in the First World War. This often startling narrative is a dramatic tale of national self-discovery, social upheaval, and realpolitik that ended, as it started, in blood and iron.
