The approach of this book is to demonstrate how theoretical aspects, drawn from topics on airplane aerodynamics, aircraft structures, stability and control, propulsion, and compressible flows, can be applied to produce a new conceptual aircraft design. The book cites theoretical expressions wherever possible, but also stresses the interplay of different aspects of the design which often require compromises. KEY TOPICS: Coverage includes the conceptual design of an aircraft; iterative and repetitive calculations, and the different degrees of dependence of the aircraft characteristics on changing input conditions. MARKET: For professionals in the Aerospace Engineering field.

Josey is a very nosey ferret. Learn about the curiosity of ferrets and how they make wonderful pets.

Paris Sketchbook is a stunning gift book from leading international fashion illustrator Jason Brooks. Although he is best known for his beautiful fashion imagery, which has regularly graced the pages of Vogue and Elle magazines, travel has been a recurrent theme in his work and his adventures continue to inspire and inform his visual repertoire. During his time on fashion assignments at the couture shows in Paris, Brooks developed a fascination for the city, drawing and painting beautiful travel journals that demonstrate his passion for all things Parisian. This book is a whimsical take on Paris, part guide book, part illustrated journal, it will appeal to both travellers and fashionistas. Sumptuous production with different stocks and inks will make this a must for anyone who loves fashion illustration and beautiful books.

Classic book on gunsmithing reprinted in a new hardcover series format.

A collection of nine short tales explores the complex worlds of such protagonists as lovers, poets, lawyers, immigrants, students, and murderers, in a volume that follows such themes as betrayal and lost opportunities.

This book explains the Seven Hermetic Laws, the Law of Correspondence, the Law of Mentalism, the law of Polarity, the Law of Cause and Effect, the Law of Gender, the Law of Vibration, and the Law of Rhythm and how they combine in different degrees to create the Law of Attraction.

Provides information on fuel economy, safety, maintenance cost, warranties, insurance, and tires for new cars.

Ciro Donati was many things: My father's most valued and trusted soldier. My brother's best friend and second in command. And the only man I would give up everything for. I fell hard for the Mafioso at the tender age of eleven. This beast of a man who I knew made people disappear-and probably enjoyed every second of it-was also the sixteen-year-old boy who had picked me up after I'd fallen flat on my face during my dance recital and told me I was the best ballerina he'd ever seen. He's watched over me, protected me like I was the most precious thing in the world to him. And then he sent me away. Scarlett Vitucci was many things: The daughter of the biggest Cosa Nostra boss from New York to Chicago. The sister of the man I would gladly take a bullet for. And the only woman I would ever love. Sending her away was the hardest thing I've ever done, but I didn't deserve her or her love. For three years I stayed away, ignoring the gnawing ache that her absence left in my chest. Now, she was back and fighting what I felt for her was impossible. Letting her go had been a huge mistake. One I would never repeat.
