### A CAC score of zero rules out significant left main stenosis, AHJ study.

CMR-based screening can increase the diagnosis of clinical and subclinical myocarditis after symptomatic or asymptomatic COVID-19 infection.

### CMR Imaging to Detect Myocarditis in Athletes After Recent SARS-CoV-2 Infection

The absolute benefit of statins was directly proportional to CAD burden at imaging. "Previously ... The current findings are unlikely to change clinical practice significantly, Steven Nissen, MD, ...

### CTA May Guide Primary Prevention Statins in Nonobstructive CAD

During a dedicated session at SCCT, cardiac imagers discussed hopes and holes in the long-awaited US chest pain guidelines.

### As New Guidelines Loom, CT Community Seeks to Fill Knowledge Gaps

However, in our meta-analysis, even when excluding REDUCE-IT (or for that matter, JELIS), the EPA trials still significantly reduced cardiovascular events." Bhatt also pointed out that two randomized ...

### Meta-analysis Supports Cardiovascular Benefits of EPA

Imaging technology has progressed to levels unimaginable to physicians who first used X-rays after German professor Wilhelm Conrad Roentgen made his discovery in 1895. With the advent of each modern ...

### Impact of Medical Imaging in Healthcare

A finding of myocardial fibrosis on cardiac MRI did not necessarily warrant aggressive management in patients with normal left ventricular (LV) volumes, ejection fractions, and no apparent cardiac ...

### Scarring on an Otherwise Normal Heart: Reassuring Data Emerge

PET image reconstruction of a cardiac PET–MR scan, from the clinical standard ... could result in an increased diagnostic sensitivity to myocardial defects in clinical practice, by enabling the ...

### Simultaneous PET–MR imaging could improve the diagnosis of heart disease

Myocarditis-or inflammation around the heart—has been reported in some patients with COVID-19. After searching the medical literature, researchers have now summarized the results of 41 studies ...

### A summary of myocarditis cases following COVID-19

A team led by researchers from Queen Mary University of London has developed a new artificial intelligence (AI) tool that is able to automatically measure the amount of fat around the heart from MRI ...

### AI predicts diabetes risk by measuring fat around the heart

HeartCare Associates of CT is Pleased to Welcome Dr. Guillaume Bassil to Our Practice! Dr. Guillaume Bassil is a cardiologist who specializes in managing heart disease and controlling cardiac risk ...

### HeartCare Associates of CT is Pleased to Welcome...

The researchers validated the tool could indeed accurately measure total PAT volumes from simple cardiac MRI imaging ... if clinical utility is demonstrated, may be applied in clinical practice ...

### AI tool can measure fat around the heart and calculate one's diabetes risk

Earlier work by the same research group documented that volumes of cardiovascular imaging tests declined by 64% worldwide ... and likely influenced practice. What the lasting impact(s) will be remain ...

### Stark Drop in CV Imaging in Early COVID-19 Offers Food for Thought

St. Jude Medical agreed to pay \$27 million to the U.S. Department of Justice (DOJ) to settle allegations that it knowingly sold defective implantable cardioverter defibrillators -- namely the Fortify, ...
