Parto Manual offers a set of papers evidencing the cultural significance of etymological commitment in ancient and medieval literature. The four sections illustrate the variety of approaches of

the same object, which for Greek writers was much more than a technical way of studying language. Contributions focus on the functions of etymology as they were intended by the authors

according to
their own aims.

(1)

"Philosophical
issues"

addresses the
theory of
etymology and
its explanatory
power,
especially in
Plato and in
Neoplatonism.

(2) "Linguistic

discusses
various
etymologizing
techniques and
the status of
etymology, which
was criticized
and openly
rejected by some
authors. (3)
"Poetical
practices of
etymology"

Download Ebook Cat 416b

Parts Manual investigates the ubiquitous presence of etymological reflections in learned poetry, whatever the genre, didactic, aetiological or epic. (4)

"Etymology and word-plays" addresses the vexed question

of the limit
between a mere
pun and a real
etymological
explanation,
which is more
than once
difficult to
establish. The
wide range of
genres and
authors and the
interplay
between

the importance
of etymology in
Greek thought.

culture.

Metaphors are
purposely
utilized to work

and that,
therefore, the
analysis of what
metaphors do
