Fiber aids colon health by helping to keep you regular and prevent constipation. This may then lower your risk of developing hemorrhoids and small pouches in your colon that can lead to diverticular disease. 4. Drink your milk. Recent studies have found that calcium and vitamin D may be associated with a decreased risk of colorectal cancer.

Eating for a Healthy Colon | Rush System

Detoxing the colon allows those undigested waste products to be pushed through the system and helps the body remain in good health. 2. Increases Energy and Concentration. Purging your colon of toxins allows energy from the intestines to focus elsewhere, meaning your energy levels could improve.

Colon cleansing | The Wellness Programme

Taking aspirin regularly may help ward off cancers of the gastrointestinal (GI) tract, suggested the largest study of its kind to date a meta-analysis of 113 studies, published in the Annals of Oncology in May. For colorectal cancer, the third most frequent cancer killer of Americans, aspirin was associated with a 27 percent reduced risk overall 10 to 13 percent for low-dose aspirin (75 to 100 milligrams) and 36 percent for regular-dose aspirin (325 milligrams).

Aspirin . . . for Your Colon? - Health and Wellness Alerts

A clean and healthy colon is essential for the proper absorption of all the nutrients and vitamins the body needs, and for the correct and complete elimination of toxins. In addition, the consumption of processed foods results in an inhibition of appropriate body functioning.

When the colon is filled the water flows out thru a larger tube, bringing with it any loose debris & Putrifaction (build up debris) This is done a number of times during a treatment, the result is a gentle flushing of the colon and loosening of old faecal debris. The Treatment is not painful or uncomfortable. (no surgery involved)

Parkland Natural Health - Colonic Irrigation/Hydrotherapy ...

Colon hydrotherapy helps cancer patients by stimulating the immune system, increasing appetite and improving the body's circulatory functions. These benefits are exceptionally helpful if the cancer sufferer is undergoing treatments such as radiation or chemotherapy because they often lack an appetite and experience a suppressed immune system response to the treatment.

Colon Hydrotherapy | Wilco Wellness

The large intestine or colon is made up of six sections: the cecum, ascending colon, transverse colon, descending colon, sigmoid and rectum. In total, the colon is five feet long and two-and-a-half inches in diameter. A healthy colon requires good nerve and muscle tone, and proper circulation, as well as adequate nutrients and pure water.
