Vidal Sassoon's extraordinary life has taken him from an impoverished East End childhood to global fame. The father of modern hairdressing, his slick sharp cutting took the fashion world by storm and reinvented the hairdressers' art. Before Vidal Sassoon, a trip to the hairdressers meant a shampoo and set or a stiffly lacquered up-do that would last a week - or more. After Vidal Sassoon, hair was sleek, smooth and very, very stylish. Along with his lifelong friend and partner in style, Mary Quant, who he first met in 1957 and who to this day sports a Sassoon-style geometric bob, he styled the 1960s. As memorable as the mini - be it car or skirt - he is one of the few people who can genuinely be described as iconic. His memoirs are as rich in anecdote as one might hope and full of surprising and often moving stories of his early life - his time at the Spanish & Portuguese Jewish Orphanage in Maida Vale, fighting Fascists in London's East End and fighting in the army of the fledgling state of Israel in the late Forties.

A captivating look at the career of social and style revolutionary Vidal Sassoon. A visionary hairstylist who became a household name, Vidal Sassoon was an instrument of change during the cultural shifts of the 1960s. Inspired by Bauhaus architecture, Sassoon's career took off with the Nancy Kwan bob in 1963, followed by the boyish five-point haircut that blurred class and sexual distinctions in the unisex era. These low-maintenance styles signaled liberation from the constraints of the past and led to a mix of social strata in his Bond Street salon as both ladies and shopgirls had their hair trimmed side by side. His singular and iconic haircuts for tastemakers such as Grace Coddington and Mia Farrow charted a new course for ideals of feminine beauty. Combining fashion photography, candid snapshots, and recollections by Sassoon and members of his artistic circle, such as David Bailey, Terence Donovan, and Mary Quant, this book is a fascinating look at one man's driven efforts to transform style and the radical changes wrought by progressive fashion.

The Beatles' hair changed the world. As their increasingly wild, untamed manes grew, to the horror of parents everywhere, they set off a cultural revolution as the most tangible symbol of the Sixties' psychedelic dream of peace, love and playful rebellion. In the midst of this epochal change was Leslie Cavendish, hairdresser to the Beatles and some of the greatest stars of the music and entertainment industry. But just how did a fifteen-year-old Jewish school dropout from an undistinguished North London suburb, with no particular artistic talent or showbusiness connections, end up literally at the cutting edge of Sixties' fashion in just four years? His story – honest, always entertaining and inspiring – parallels the meteoric rise of the Beatles themselves, and is no less astounding.
