Mermaids, swordfights, and adventures through Neverland are all fun and exciting-until you're staring down the mouth of a crocodile big enough to topple a castle. Journey into the world of Peter Pan and its mysterious inhabitants in Neverland: A Role-Playing Game. Neverland is a Hexcrawl campaign, an adventure that relies on a group of players exploring a hexagonally gridded area. Each hex is densely packed with locations and mysteries that can be explored and revisited and altered in a number of ways. All it takes is for a group of adventurers to stumble in and shake things up. Designer Andrew Kolb has built the perfect world for such adventurers, adapting the lore of the beloved tales of Peter Pan for an older audience. For anyone who would like to run an RPG after Dungeons & Dragons fatigue sets in, exploring a contained world built off of a familiar (and public domain) property that naturally lends itself to adventure is the perfect next step.

Now the latest host, Angel Kostenko, is lost, on the run, and fighting for her very life and soul against the Sect and a giant demon hound called Ammit. Heralding the rebirth of a Hammer legend and written by fan-favorite Peter Milligan (X-static, X-Force, Shade, the Changing Man, Hellblazer, and Batman). This album collects the Mummy: Palimpsest five-issue mini-series and includes a cover gallery and series of articles about the original Hammer Mummy films written by official Hammer historian Marcus Hearn.

They say there have been eight worlds before ours. Eight times the people of this Earth, over vast millennia, built their civilizations. They reached heights we cannot even imagine now: they spoke to the stars, reshaped the creatures of the world, and mastered form and essence. They built cities and machines that have since crumbled to dust, leaving only their vast outlines and barest remnants. This is the Ninth World. The people of the prior worlds are gonescattered, disappeared, or transcended. But their works remain, in the places and devices that still contain some germ of function. The ignorant call these magic, but the wise know that these are our legacy. They are our future. They are the... Two 416-page corebooks, two poster maps, a handsome and sturdy slipcase, a metal medallion, and additional play aids all for the price of the corebooks alone. All existing Numenera supplements remain compatible with these corebooks.

entities from beyond time prowl the city streets, forgotten rituals are reborn as viral memes. Do you take a stand against the encroaching shadows? Or do you seek their power for yourself? Powered by the highly accessible d00Lite system, Sigil & Shadow focuses squarely on the story rather than the mechanics – who the characters are and what they do, not how they do it. Easy to adopt to any mythos, campaigns can be built around a wide range of plots, with players taking the role of anything from paranormal investigators and monster hunters to members of occult cabals or secret societies. The setting offered sees a modern world buffeted by the tides of supernatural power, where beings of myth wake from their slumber while modern cults sacrifice to pop-culture gods and ancient cabals pursue their age-old schemes into the digital age.
