From the old Gumstix boards to everyone's favorite Raspberry Pi, common single-board computers (SBCs) have traditionally had at least one thing in common: an ARM processor. But that's not to ...

Readins in high & low

The most important figure of seventeenth-century Neapolitan music, Francesco Provenzale (1624-1704) spent his long life in the service of a number of Neapolitan conservatories and churches, culminating in his appointment as maestro of the Tesoro di S. Gennaro and the Real Cappella. Provenzale was successful in generating significant profit from a range of musical activities promoted by him with the participation of his pupils and trusted collaborators. Dinko Fabris draws on newly discovered archival documents to reconstruct the career of a musician who became the leader of his musical world, despite his relatively small musical output. The book examines Provenzale's surviving works alongside those of his most important Neapolitan contemporaries (Raimo Di Bartolo, Sabino, Salvatore and Caresana) and pupils (Fago, Greco, Veneziano and many others), revealing both stylistic similarities and differences, particularly in terms of new harmonic practices and the use of Neapolitan language in opera. Fabris provides both a life and works study of Provenzale and a conspectus of Neapolitan musical life of the seventeenth century which so clearly laid the groundwork for Naples' later status as one of the great musical capitals of Europe.

With almost twice as many chapters, this new edition of Pediatric Retina now includes important information on the development of the eye and retina, basic/translational science of retinal diseases in infants and children, telemedicine using wide-angle imaging for diagnosis and longitudinal management of infants and children, as well as international approaches to care with focus on retinopathy of prematurity.

Cell Therapy: cGMP Facilities and Manufacturing is the source for a complete discussion of facility design and operation with practical approaches to a variety of day-to-day activities, such as staff training and competency, cleaning procedures, and environmental monitoring. This in-depth book also includes detailed reviews of quality, the framework of regulations, and professional standards. It meets a previously unmet need for a thorough facility-focused resource. Cell Therapy: cGMP Facilities and Manufacturing will be an important addition to the cell therapy professional's library. Additional topics in Cell Therapy: cGMP Facilities and Manufacturing...Standard operating procedures - Supply management - Facility equipment - Product manufacturing, review, release and administration - Facility master file.
