Where are we today and what is to be done? Slavoj Zizek ponders these questions in this unique and timely book. Based on live interviews, the book captures Zizek at his irrepressible best, elucidating such topics as the uprisings of the Arab Spring, the global financial crisis, populism in Latin America, the rise of China and even the riddle of North Korea. Zizek dazzles readers with his analyses of Hollywood films, Venezuelan police reports, Swedish crime fiction and much else. Wherever the conversation turns, his energetic mind illuminates unexpected horizons.

While analyzing our present predicaments, Zizek also explores possibilities for change. What sort of society is worth striving for? Why is it difficult to imagine alternative social and political arrangements? What are the bases for hope? A key obligation in our troubled times, argues Zizek, is to dare to ask fundamental questions: we must reflect and theorize anew, and always be prepared to rethink and redefine the limits of the possible. These original and compelling conversations offer an engaging and accessible introduction to one of the most important thinkers of our time.

in a series of entertaining conversations which illustrate the originality of Žižek's thinking on psychoanalysis, philosophy, multiculturalism, popular/cyber culture, totalitarianism, ethics and politics. An excellent introduction to one of the most engaging and controversial cultural theorists writing today. Žižek is a Slovenian sociologist who trained as a Lacanian and uses Lacan to analyse popular culture and politics. Illustrates the originality of Žižek's thinking on psychoanalysis, philosophy, multiculturalism, popular/cyber culture, totalitarianism, ethics and politics. Provides a unique glimpse of Žižek's humour and character and offers new material and fresh perspectives which will be of interest to

followers of Žižek's writings.

Two controversial thinkers discuss a timeless but nonetheless urgent question: should philosophy interfere in the world? Nothing less than philosophy is at stake because, according to Badiou, philosophy is nothing but interference and commitment and will not be restrained by academic discipline. Philosophy is strange and new, and yet speaks in the name of all - as Badiou shows with his theory of universality. Similarly, Zizek believes that the philosopher must intervene, contrary to all expectations, in the key issues of the time. He can offer no direction, but this only shows that the question has been posed

incorrectly: it is valid to change the terms of the debate and settle on philosophy as abnormality and excess. At once an invitation to philosophy and an introduction to the thinking of two of the most topical and controversial philosophers writing today, this concise volume will be of great interest to students and general readers alike.

A high-energy philosophical manifesto on the concept and virtues of universal values addresses such topics as Heidegger's engagement with the Third Reich, the role of class struggles in global capitalism, and the legacy of Christianity against New Age spiritualism. Original.

As we emerge (though perhaps only temporarily) from the pandemic, other crises move center stage: outrageous inequality, climate disaster, desperate refugees, mounting tensions of a new cold war. The abiding motif of our time is relentless chaos.

Acknowledging the possibilities for new beginnings at such moments, Mao Zedong famously proclaimed "There is great disorder under heaven; the situation is excellent." The contemporary relevance of Mao's observation depends on whether today's catastrophes can be a catalyst for progress or have passed over into something terrible and irretrievable. Perhaps the disorder is no longer under, but in heaven itself.

Characteristically rich in paradoxes and reversals that entertain as well as illuminate, Slavoj Žižek's new book treats with equal analytical depth the lessons of Rammstein and Corbyn, Morales and Orwell, Lenin and Christ. It excavates universal truths from local political sites across Palestine and Chile, France and Kurdistan, and beyond. *Heaven In Disorder* looks with fervid dispassion at the fracturing of the Left, the empty promises of liberal democracy, and the tepid compromises offered by the powerful. From the ashes of these failures, Žižek asserts the need for international solidarity, economic transformation, and--above all--an urgent, "wartime" communism.

The clearest, boldest and most systematic statement of Simon Critchley's influential views on philosophy, ethics, and politics, *Infinitely Demanding* identifies a massive political disappointment at the heart of liberal democracy. Arguing that what is called for is an ethics of commitment that can inform a radical politics, Critchley considers the possibility of political subjectivity and action after Marx and Marxism, taking in the work of Kant, Levinas, Badiou and Lacan. *Infinitely Demanding* culminates in an argument for anarchism as an ethical practice and a remotivating means of political organization.

As an unprecedented global pandemic sweeps the

planet, who better than the supercharged Slovenian philosopher Slavoj Žižek to uncover its deeper meanings, marvel at its mind-boggling paradoxes and speculate on the profundity of its consequences? We live in a moment when the greatest act of love is to stay distant from the object of your affection. When governments renowned for ruthless cuts in public spending can suddenly conjure up trillions. When toilet paper becomes a commodity as precious as diamonds. And when, according to Žižek, a new form of communism – the outlines of which can already be seen in the very heartlands of neoliberalism – may be the only way of averting a descent into global barbarism. Written with his customary brio and love of

analogies in popular culture (Quentin Tarantino and H. G. Wells sit next to Hegel and Marx), Žižek provides a concise and provocative snapshot of the crisis as it widens, engulfing us all.

Called "the Elvis of cultural theory" by The New York Times, popular philosopher and leftist rabble-rouser Slavoj Zizek, looks at one of the most desperate situations of our time: the current refugee crisis overwhelming Europe. In this short yet stirring book, Zizek argues that accepting all comers or blocking all entry are both untenable solutions... but there is a third option. Today, hundreds of thousands of people, desperate to escape war, violence and poverty, are

crossing the Mediterranean to seek refuge in Europe. Our response, from our protected Western European standpoint, argues Slavoj Zizek, offers two versions of ideological blackmail: either we open our doors as widely as possible; or we try to pull up the drawbridge. Both solutions are bad, states Zizek. They merely prolong the problem, rather than tackling it. The refugee crisis also presents an opportunity, a unique chance for Europe to redefine itself: but, if we are to do so, we have to start raising unpleasant and difficult questions. We must also acknowledge that large migrations are our future: only then can we commit to a carefully prepared process of change, one founded not on a community that see the

excluded as a threat, but one that takes as its basis the shared substance of our social being. The only way, in other words, to get to the heart of one of the greatest issues confronting Europe today is to insist on the global solidarity of the exploited and oppressed. Maybe such solidarity is a utopia. But, warns Zizek, if we don't engage in it, then we are really lost. And we will deserve to be lost.

Zizek analyzes the logic behind toppling Saddam Hussein despite no evidence of WMDs and questions the actual ideological and political stakes of the attack on Iraq.
