The history of Fahr. Maschinenfabrik Fahr (Fahr Machine Factory) was established by Johann Georg Fahr in Gottmadingen in 1870. One of its most important products was the self-binder, manufactured in 1911, while the first tractor, the Fahr F22, was built in 1938 from an idea of Wilfred Fahr and Bernhard Flerlage, and had a 22 hp (16 kW) Deutz F2M414 twin-cylinder diesel engine.

Deutz-Fahr - Wikipedia

Agricultural machinery production began in 1907. Deutz tractors were very popular in western Europe after World War II. Farmers liked the simple, rugged air-cooled diesel engines. In 1969, Deutz merged with Fahr, a farm implement manufacturer and the Deutz-Fahr brand was born. The company was purchased by SAME in 1995. Deutz-Fahr - official site
