Black Dragon River recounts a personal journey down one of Asia's great rivers. The world's ninth largest river, the Amur serves as a large part of the border between Russia and China. As a crossroads for the great empires of Asia, this area offers Economist journalist Dominic Ziegler a lens with which to examine the societies at Europe's only borderland with East Asia. Part travel writing, part history, it reveals how the long shared history on the Amur has conditioned the way China and Russia behave toward each other.

In the "brilliant novel" (The New York Times) V.S. Naipaul takes us deeply into the life of one man—an Indian who, uprooted by the bloody tides of Third World history, has come to live in an isolated town at the bend of a great river in a newly independent African nation. Naipaul gives us the most convincing and disturbing vision yet of what happens in a place caught between the dangerously alluring modern world and its own tenacious past and traditions.

correspondent Dan Morrison bought a plank-board boat, summoned a friend who'd never left America, and set out from Uganda, paddling the Nile on a quest to reach Cairo—a trip that tyranny and war had made impossible for decades. With the propulsive force of a thriller, Morrison's chronicle is a mash-up of travel narrative and reportage, packed with flights into the frightful and absurd. From the hardscrabble fishing villages on Lake Victoria to the floating nightclubs of Cairo, *The Black Nile* tracks the snarl of commonalities and conflicts that bleed across the Nile valley, bringing to life a complex region in profound transition.

"You already been a punk. Least you can do is go out like a man." Then a dull popping sound and a quiet splash. In his third appearance in George Pelecanos's acclaimed series, Nick Stefanos has been spending too much time with bad women and bad booze. Which is why he wakes up one blurry morning on the banks of the Anacostia River, hungover and miserable -- and now a witness to a murder. With the help of a partner as straight-arrow as Nick is bent, Nick decides to track down the killer, an investigation that leads them through the roughest part of the nation's capital, and into the blackest parts of the human soul.

Down to the River is a collection of twenty crimes stories that take place on or near American rivers from some of the strongest voices in crime fiction writing today. As these stories show, rivers are not only sources of life; they can also be scenes of murder and revenge. All twenty stories have been generously donated by the writers to show their support for American Rivers, an organization that truly understands America would not be America were it not for our amazing rivers and waterways. The authors and American Rivers believe that rivers connect all of us as Americans and need to be protected and preserved for future generations. Edited by Tim O'Mara with an introduction by Hank Phillippi Ryan and stories by Reed Farrel Coleman, Bruce DeSilva, Patricia Smith, and more.

The Danube is Europe's Amazon. It flows through more countries than any other river on Earth - from the Black Forest in Germany to Europe's farthest fringes, where it joins the Black Sea in Romania. Andrew Eames' journey along its length brings us face to face with the Continent's bloodiest history and its most pressing issues of race and identity. As he travels - by bicycle, horse, boat and on foot - Eames finds himself seeking a bed for the night with minor royalty, hitching a ride on a Serbian barge captained by a man called Attila and getting up close and personal with a bull in rural Romania. He meets would-be kings and walks with gypsies, and finally rows his way beyond the borders of Europe entirely...

This powerful biography traces the career of an African American physician and civil rights advocate, Edward Craig Mazique (1911–1987), from the poverty and discrimination of Natchez, Mississippi, to his status as a prominent physician in Washington, DC. This moving story of one man's accomplishments, in spite of many opposing forces, is also a chapter in the struggle of African Americans to achieve equality in the twentieth century. At a time when black people were being denied entry into the American Medical Association and were not permitted to join the staffs of most hospitals, Dr. Mazique was the president of the Medico-Chirurgical Society and the National Medical Association. Dr. Mazique worked closely with Martin Luther King Jr., Presidents John F. Kennedy and Lyndon B. Johnson, and black physicians to expand the availability of health care. Much of

this story is in Dr. Mazique's own words, taken from interviews with the author. What emerges from this biography is a picture of an exceptional but very human man who, despite discrimination and repression, excelled beyond all expectations.

Traces the history of slavery in a concentrated area between Alabama and Georgia, chronicling how in the decades between the region's founding and the collapse of the Confederacy, it became dominated by a slave society of significant demographical, territorial and economic expansion.
