The four-year SJB varsity swimmer, and three-time All-League recipient, earned a full academic scholarship to Division III California Institute of Technology, where she will double major and swim.

Dragonetti devoted his life to the double bass. His career in England (1794-1846) is one of the most remarkable success stories in the annals of musical history.

## Read PDF Dragonetti Works Double B Piano

His unprecedented virtuosity elevated the double bass to a new status. In combination with his charismatic personality his musical talent dominated the English cultural world for more than fifty years. As performer, composer, collector, and friend, he exposed the unforeseen potential of the double bass. His formidable talent as a musician and businessman provides an unusual insight into nineteenth-century entrepreneurship. This first substantial biography and assessment of Dragonetti's career allows us to understand his importance in the history of music in general and of double-bass performance in particular.

Intended as a supplement to The

**Mechanical Muse: The Piano, Pianism and Piano Music, c.1760-1850**, this Companion provides additional information which, largely for reasons of space but also of continuity, it was not possible or desirable to include in that volume. The book is laid out alphabetically and full biographical entries are provided for all musical figures mentioned, including composers, performers, theoreticians and teachers, as well as piano makers and publishers of music, within the period covered by *The Mechanical Muse*. There are also entries on figures of importance from outside the period but whose influence is palpably important within it, such as J.S. Bach. As well as biographical information,

## Read PDF Dragonetti Works Double B Piano

all these entries contain lists of principal works and a section on further reading so that readers can follow up people and matters of particular interest. Also included in The Companion are entries devoted to particular works and other information of relevance, such as descriptions of musical forms, characteristics of dances and so on, as well as some technical information on music and explanations of technical terms pertaining to keyboard instruments themselves and to ways of playing them. This Companion is not intended to replace existing reference books such as Grove or Musik in Geschichte und Gegenwart, but will be useful for those who desire to know more about a particular
