"Apply the 2014 NFPA 1021 Standard to ensure fire officers are ready to take command! New technologies, operating procedures, information management strategies, and many other factors impact today's fire service leaders. Fire officers must be prepared to address multiple challenges on the fireground, at the station, and in the community. Make sure personnel are ready to take command with up-to-date Job Performance Requirements (JPRs) in the 2014 NFPA 1021: Standard for Fire Officer Professional Qualifications. NFPA 1021 specifically identifies four levels of progression: Fire Officer Level I (supervisory); Fire Officer Level II (supervisory and managerial); Fire Officer Level III (managerial/administrative); Fire Officer Level IV (administrative)." -- provided by publisher.

Make sure that you have the training and certification needed to provide the best risk reduction to your community. Reducing community risk requires trained individuals to verify that a locality adheres to locally adopted fire and life-safety standards for structural safety components in construction and renovations. performance requirements for level I and II fire inspectors from Chapters 4 and 5 of NFPA 1031, Standard for Professional Qualifications for Fire Inspector and Plan Examiner, 2009 Edition. Fire Inspector: Principles and Practice is built on a solid foundation of the basics: building construction, fire growth, and types of occupancies. This fundamental knowledge is presented in a concise, understandable writing style that is easy to digest and recall. The solid foundation of fire and building knowledge then branches out to show the fire inspector how abstract concepts and codes will be concretely applied on a daily basis. This is the text that truly prepares fire inspectors for the real world.
