The New York Times Best Seller "[Hope Never Dies is] an escapist fantasy that will likely appeal to liberals pining for the previous administration, longing for the Obama-Biden team to emerge from political retirement as action heroes."—Alexandra Alter, New York Times Vice President Joe Biden and President Barack Obama team up in this high-stakes thriller that combines a mystery worthy of Watson and Holmes with the laugh-out-loud bromantic chemistry of Lethal Weapon’s Murtaugh and Riggs. Vice President Joe Biden is fresh out of the Obama White House and feeling adrift when his favorite railroad conductor dies in a suspicious accident, leaving behind an ailing wife and a trail of clues. To unravel the mystery, “Amtrak Joe” re-teams with the only man he’s ever fully trusted: the 44th president of the United States. Together they’ll plumb the darkest corners of Delaware, traveling from cheap motels to biker bars and beyond, as they uncover the sinister forces advancing America’s opioid epidemic. Part noir thriller and part bromance, Hope Never Dies is essentially the first published work of Obama/Biden fiction—and a cathartic read for anyone distressed by the current state of affairs.

America’s most inspirational voices, in their own words: “If you’re looking for a reason to act and dream again, you’ll find it in the pages of this book” (Chicago Tribune). Published when Studs Terkel was ninety-one years old, this astonishing oral history tackles one of the famed journalist’s most elusive subjects: Hope. Where does it come from? What are its essential qualities? How do we sustain it in the darkest of times? An alternative, more personal chronicle of the “American century,” Hope Dies Last is a testament to the indefatigable spirit that Studs has always embodied, and an inheritance for those who, by taking a stand, are making concrete the dreams of today. A former death row inmate who served nearly twenty years for a crime he did not commit discusses his never-ending fight for justice. Tom Hayden, author of The Port Huron Statement, contemplates the legacy of 1960s student activism. Liberal economist John Kenneth Galbraith reflects on the enduring problem of corporate malfeasance. From a doctor who teaches his young students compassion to the retired brigadier general who flew the Enola Gay over Hiroshima, these interviews tell us much about the power of the American dream and the force of individuals who advocate for a better world. With grace and warmth, Terkel’s subjects express their secret hopes and dreams. Taken together, this collection of interviews tells an inspiring story of optimism and persistence, told in voices that resonate with the eloquence of conviction. “The value of Hope Dies Last lies not in what it teaches readers about its narrow subject, but in the fascinating stories it reveals, and the insight it allows into the vast range of human experience.”—The A.V. Club “Very Terkelesque—by now the man requires an adjective of his own.”—Margaret Atwood, The New York Times Review of Books “An American treasure.”—Cornel West
