Expert writing advice from the editor of the Boston Globe best-seller, *The Writer's Home Companion* Dissertation writers need strong, practical advice, as well as someone to assure them that their struggles aren't unique. Joan Bolker, midwife to more than one hundred dissertations and co-founder of the Harvard Writing Center, offers invaluable suggestions for the graduate-student writer. Using positive reinforcement, she begins by reminding thesis writers that being able to devote themselves to a project that truly interests them can be a pleasurable adventure. She encourages them to pay close attention to their writing method in order to discover their individual work strategies that promote productivity; to stop feeling fearful that they may disappoint their advisors or family members; and to tailor their theses to their own writing style and personality needs. Using field-tested strategies she assists the student through the entire thesis-writing process, offering advice on choosing a topic and an advisor, on disciplining one's self to work at least fifteen minutes each day; setting short-term deadlines, on revising and defing the thesis, and on life and publication after the dissertation. Bolker makes writing the dissertation an enjoyable challenge.

This CHOICE award winning author has teamed up with a Chair of the Department of Research at Concordia University Chicago to write a comprehensive book on finishing and defending a dissertation. A first of its kind, this book provides you everything you need to know about successfully passing the dissertation defense such as: preparing and finishing the manuscript, using cloud-based communities, preparing presentations, using effective communication strategies, managing stress, motivating yourself, revising and editing the manuscript, publishing and presenting the final dissertation and more.

A long-term bestseller, this book is a pragmatic step-by-step guide to completing you dissertation or thesis during two semesters, in fifty workdays or less. It covers advisor and topic selection, proposal development, data collection and organization, available assistance, writing, and defense. The author demystifies the process and provides you with essential guidance through the rites of passage that are an integral part of completing your degree.

It is possible to finish your thesis in 6 months, even if you don ' t know what to write or haven ' t finished your research. In this short ebook, Scott Rank distills the principles that helped him go from crippling writer ' s block to writing 500-1000 words a day. In this book you will learn the following: A simple daily habit that will help you start writing your dissertation How to make it impossible not to write everyday How to write even if all your research isn ' t finished How to get the most out of your advisor meetings How to get your friends actively help you finish, even if they aren ' t academics.

When a dissertation crosses my desk, I usually want to grab it by its metaphorical lapels and give it a good shake. “ You know something! ” I would say if it could hear me. “ Now tell it to us in language we can understand! ” Since its publication in 2005, *From Dissertation to Book* has helped thousands of young academic authors get their books beyond the thesis committee and into the hands of interested publishers and general readers. Now revised and updated to reflect the evolution of scholarly publishing, this edition includes a new chapter arguing that the future of academic writing is in the hands of young scholars who must create work that meets the broader expectations of readers rather than the narrow requirements of academic committees. At the heart of *From Dissertation to Book* is the idea that revising the dissertation is fundamentally a process of shifting its focus from the concerns of a narrow audience—a committee or advisors—to those of a broader scholarly audience that wants writing to be both informative and engaging. William Germano offers clear guidance on how to do this, with advice on such topics as rethinking the table of contents, taming runaway footnotes, shaping chapter length, and confronting the limitations of jargon, alongside helpful timetables for light or heavy revision. Germano draws on his years of experience in both academia and publishing to show writers how to turn a dissertation into a book that an audience will actually enjoy, whether reading on a page or a screen. Germano also acknowledges that not all dissertations can or even should become books and explores other, often overlooked, options, such as turning them into journal articles or chapters in an edited work. With clear directions, engaging examples, and an eye for the idiosyncrasies of academic writing, *From Dissertation to Book* reveals to recent PhDs the secrets of careful and thoughtful revision—a skill that will be truly invaluable as they add “ author ” to their curriculum vitae.

A doctoral dissertation is arguably the most important journey that students will embark upon in their professional careers, so smart travelers will want E. Alana James and Tracesea H. Slater ' s *Writing Your Doctoral Dissertation or Thesis Faster: A Proven Map to Success* at their fingertips. James and Slater identify the key places and challenges that create extra stress during the dissertation process, and offer effective strategies and tools to address those challenges and ensure academic success. Their map walks readers through each step of the process, including: • determining the research topic, • choosing appropriate methods, • turning a hypothesis into a study, • completing a literature review, • writing and defending a proposal, • collecting and analyzing data, • writing up the study, and • ultimately defending the dissertation. Building on years of experience with doctoral students, the authors provide a comprehensive, yet easy-to-use tool that encourages student reflection; includes student stories, hints, and writing tips; and provides end-of-chapter checklists and ideas for incorporating social media. With the proven techniques and guidance of this indispensable and applied book, doctoral students will finish their thesis or dissertation—faster!

Research shows that five strategies correlate with the successful completion of a dissertation: Establishing a consistent writing routine Working with a support group Consulting your advisor Understanding your committee ' s expectations Setting a realistic and timely schedule Building on these insights, this book is for anyone who needs help in preparing for, organizing, planning, scheduling, and writing the longest sustained writing project they have encountered, particularly if he or she is not receiving sufficient guidance about the process, but also for anyone looking to boost his or her writing productivity. The author uncovers much tacit knowledge, provides advice on working with dissertation advisors and committee members, presents proven techniques for the prewriting and writing stages of the dissertation, sets out a system for keeping on schedule, and advocates enlisting peer support. As Peg Boyle Single states, “ my goal is quite simple and straightforward: for you to experience greater efficiency and enjoyment while writing. If you experience anxiety, blocking, impatience, perfectionism or procrastination when you write, then this system is for you. I want you to be able to complete your writing so that you can move on with the rest of your life. ” Few scholars, let alone graduate students, have been taught habits of writing fluency and productivity. The writing skills imparted by this book will not only help the reader through the dissertation writing process, but will serve her or him in whatever career she or he embarks on, given the paramount importance of written communication, especially in the academy. This book presents a system of straightforward and proven techniques that are used by productive writers, and applies them to the dissertation process. In particular, it promotes the concept of writing networks – whether writing partners or groups – to ensure that writing does not become an isolated and tortured process, while not hiding the need for persistence and sustained effort. This book is intended for graduate students and their advisers in the social sciences, the humanities, and professional fields. It can further serve as a textbook for either informal writing groups led by students or for formal writing seminars offered by departments or graduate colleges. The techniques described will help new faculty advise their students more effectively and even achieve greater fluency in their own writing.

Addressing one of the key challenges facing doctoral students, *Completing Your Qualitative Dissertation* by Linda Dale Bloomberg and Marie Volpe fills a gap in qualitative literature by offering comprehensive guidance and practical tools for navigating each step in the qualitative dissertation journey, including the planning, research, and writing phases. Blending the conceptual, theoretical, and practical, the book becomes a dissertation in action—a logical and cohesive explanation and illustration of content and process. The Third Edition maintains key features that distinguish its unique approach and has been thoroughly updated and expanded throughout to reflect and address recent developments in the field.
