60 pages, 57 illustrations, size 8.25 x 11 inches. A faithful reproduction of the Factory Workshop Manual originally published by Floyd Clymer in 1967. This fully illustrated manual covers the 736cc Interceptor MK I, MK IA, MK II and the Enfield Indian Chief from 1963 through 1970. As expected from a factory publication this manual includes complete technical data and comprehensive detailed instructions for the repair and overhaul of all major and minor mechanical and electrical components, making it an invaluable resource for collectors and restorers of these classic Royal Enfield motorcycles. It contains comprehensive Technical Specifications and includes detailed repair and rebuild data for the Engine, Clutch, Transmission, Forks, Rear Suspension, Wheels, Brakes and more. It also includes comprehensive information on the Electrical and Ignition Equipment plus Wiring Diagrams. There is adequate detailed text and illustrations to assist in major refurbishing such as an engine rebuild or even a complete mechanical renovation. An essential addition to any Royal Enfield enthusiasts library, this book has been out-of-print and unavailable for many years and is becoming increasingly more difficult to find on the secondary market. This is a - must have - reference for this series of Royal Enfield motorcycles and we are pleased to be able to offer this reproduction as a service to all Interceptor owners worldwide.
