Rather than the tattoo artist using a rotary or coil machine to insert the ink into the skin, handpoking is done by attaching a needle (professionals use tattoo-grade needles) to a rod-shaped element, like a pencil, to create an analog tattoo machine.

A Comprehensive Guide to All Types of Tattoos
The most common method of tattooing in modern times is the electric tattoo machine, which inserts ink into the skin via a single needle or a group of needles that are soldered onto a bar, which is attached to an oscillating

Tattoo - Wikipedia

Tattooing has been practiced across the globe since at least Neolithic times, as evidenced by mummified preserved skin, ancient art and the archaeological record. Both ancient art and archaeological finds of possible tattoo tools suggest tattooing was practiced by the Upper Paleolithic period in Europe. However, direct evidence for tattooing on mummified human skin extends only to the 4th ...
