In 1995, the International Committee of the Red Cross, along with a range of renowned experts, embarked upon a major international study into current state practice in humanitarian law in order to identify customary law in this area. This book (and its companion, Volume 1: Rules) is the result of that study. Volume 2 contains a summary of the relevant treaty law, international case-law and relevant state practice including legislation, military manuals, case-

International humanitarian law is the law that governs the conduct of participants during armed conflict. This branch of law aims to regulate the means and methods of warfare as well as to provide protections to those who do not, or who no longer, take part in the hostilities. It is one of the oldest branches of international law and one of enduring relevance today. The Oxford Guide to International Humanitarian Law provides a practical yet sophisticated overview of this important area of law. Written by a stellar line up of

Contributors, drawn from those who not only have extensive practical experience but who are also regarded as leading scholars of the subject, the text offers a comprehensive and authoritative exposition of the field. The Guide provides professionals and advanced students with information and analysis of sufficient depth to enable them to perform their tasks with understanding and confidence. Each chapter illuminates how the law applies in practice, but does not shy away from the important conceptual issues that underpin how the law has developed. It will serve as a first port of call and a regular reference work for those interested in international humanitarian law.

This book explores the nature and scope of the provision requiring States to ‘ensure respect’ for international humanitarian law (IHL) contained within Common Article 1 of the 1949 Geneva Conventions. It examines the interpretation and application of this provision in a range of contexts, both thematic and country-specific. Accepting the clearly articulated notion of ‘respect’ for IHL, it builds on the existing literature studying the meaning of ‘ensure respect’ and outlines an understanding of the concept in situations such as enacting implementing legislation, diplomatic interactions, regulating private actors, targeting, detaining persons under IHL in non-international armed conflict, protecting civilians (including internally displaced populations) and prosecuting war crimes. It also
