Understanding World Religions introduces students to major worldviews—including Hindu, Buddhist, Muslim, Jewish, Christian, Native American, and Marxist—through the lens of justice and peace. The second edition has been updated and revised throughout. After an introduction to key themes in studying world religion, chapters help students explore major traditions today. Each chapter takes a similar approach, examining several dimensions of each tradition—experiential and emotional, social and institutional, narrative or mythic, doctrinal and philosophical, practical and ritual, and ethical and legal. Chapters feature profiles of major peacemakers or groups to bring the traditions to life. Profiles range from Gandhi and Martin Luther King to Thich Nhat Hanh and Dorothy Day. Further chapters explore liberation theologies,

Understanding World Religions remains a powerful introduction to major worldviews with an emphasis on practical connections to peace and justice.

Orientalism is the term applied to scholarship that reduces Islam and Muslims to stereotypes of ignorance and violence in need of foreign control. It has been used to rationalize Europe's colonial domination of most of the Muslim world and continued American-led interventions in the post-colonial

period. In the past 30 years it has been represented by claims that a monolithic Islam and equally monolithic West are distinct civilizations, sharing nothing in common and, indeed, involved in an inevitable "clash" from which only one can emerge the winner. Most recently, it has appeared in Alt Right rhetoric. Anti-Muslim sentiment, measured in public opinion polls, hate crime statistics, and legislation, is reaching record levels. Since John Esposito published his first book nearly 40 years ago, he has been guiding readers beyond such politically charged stereotypes. The essays in this volume highlight the contributions of scholars from a variety of disciplines who, like -- and often inspired by -- John Esposito, recognize the misleading and politically dangerous nature of Orientalist polarizations. They present Islam as a multi-

faceted and dynamic tradition embraced by communities in globally interconnected but substantially diverse contexts over the centuries. The contributors follow Esposito's lead, stressing the profound commonalities among religions and replacing Orientalist discourse with holistic analyses of the complex historical phenomena that affect developments in all societies. In addition to chapters focusing on diversity among Muslims and interfaith relations, this collection includes chapters assessing the secular bias at the root of Orientalist scholarship, and contemporary iterations of Orientalism in the form of Islamophobia.

In *What Everyone Needs to Know about Islam*, Esposito presents in question-and-answer format the information that most people want to know. Esposito provides succinct, accessible, sensitive, and even-handed answers to questions that range from the general--"What do Muslims believe?" and "Who was Muhammad?"--to more specific issues like Is Islam compatible with modernization, capitalism and democracy?
