Building owner's manual - O and M manual - Designing ...

This manual contains useful information on restoring and preserving heritage buildings, but it is intended as a general guide only. The Provincial Government has taken all reasonable steps to ensure the accuracy of the information in this publication. However, it recommends that building owners consult with specialists, such as contractors, builders, plumbers, heating and air professionals and electricians, when doing any renovations, repairs or construction on their properties.

details necessary about a physical plant as well as individual pieces of equipment to help the maintenance staff keep everything running smoothly.

What is an Operation and Maintenance Manual?

These manuals describe the processes, methods, tools, components, and frequencies involved for requisite operations and management of physical assets.

Janitorial/Cleaning—As the building is opened the keys are turned over to the janitorial, custodial or housekeeping staff for interior "cleaning" and maintenance. Using environmentally friendly cleaning products and incorporating safer methods to clean buildings provides for better property asset management and a healthier workplace.

business, travel, and education.

Known for encouraging step-by-step problem solving and for connecting techniques to real-world scenarios, David Ammons' *Tools for Decision Making* covers a wide range of local government practices—from the foundational to the advanced. Brief and readable, each chapter opens with a problem in a hypothetical city and then introduces a tool to address it. Thoroughly updated with new local government examples, the second edition also incorporates chapters devoted to such additional techniques as sampling analysis, sensitivity analysis, financial condition analysis, and forecasting via trend analysis. Numerous tables, figures, exhibits, equations, and worksheets walk readers through the application of tools, and boxed features throughout each chapter present other uses for techniques, helpful online resources, and common errors. A handy guide for students and an invaluable resource and reference for practitioners. Students can visit college.cqpress.com/TDM for more opportunities to put these tools to use. Instructors can register for access to the solutions.

Skills, a two-phase project begun in 2001. This project involved the development of job-specific sector manuals that include step-by-step learning activities for selected tasks in specified sectors. All the activities have been aligned to the Canadian Essential Skills and to the selected Canadian National Occupation Classification profiles. There are six manuals in the series: Clerical, Grounds Maintenance, Janitorial, Kitchen Help, Retail, and Ready for Work. Janitorial is aimed at learners training for or working in entry level cleaning roles. Topics include: Safety, Understanding Hazardous Product Labels, Understanding Signs, Mopping Following a Pattern, and Garbage: Bags & Recycling. Use in conjunction with Ready for Work, a manual that addresses the "soft skills" common to many jobs.
