4e de couv.: Chungking Mansions, a dilapidated seventeen-story commercial and residential structure in the heart of Hong Kong's tourist district, is home to a remarkably motley group of people. Traders, laborers, and asylum seekers from all over Asia and Africa live and work there, and even backpacking tourists rent rooms in what is possibly the most globalized spot on the planet. But as Ghetto at the center of the world shows us, the Mansions is a world away from the gleaming headquarters of multinational corporations -instead it epitomizes the way globalization actually works for most of the world's people. El Castillo Interior or Las Moradas (trans.: The Interior Castle or The Mansions) was written by Saint Teresa of Avila in 1577 as a guide for spiritual development, through service and prayer. Inspired by her vision of the soul as a crystal globe in the shape of a castle containing seven mansions, which she interpreted as the journey of faith through seven stages, ending with union with God
