2019 SSC JE MECHANICAL ENGINEERING SOLVED PAPERS

This book is a rebuttal of the common belief that grave environmental consequences are associated with the issues of global warming and nuclear hazards. Firstly, it is argued that after 25 years of research no-one has actually found evidence for greenhouse warming. Instead, the heat has caused the evaporation of ocean water to increase cloud coverage, reflecting more sunlight away, cooling down the earth and nullifying the effects of greenhouse warming. The author describes this revolution in climatology through new scientific discoveries that solve the longstanding mystery of the ice ages and explain the enigma of the missing greenhouse heat. The solution of the ice age problem is a far most important scientific accomplishment. In the second part of the book, the author argues that the effects of low-level radiation can be beneficial rather than damaging. Evidence is presented proving that low-level radiation in the US from both natural sources and human activities such as nuclear bombs tests actually reduces death rates from cancer and other diseases and increases longevity. In the Indian State of Kerala life span has been shown to increase 10.5 years due to the natural radiation from thorium mines. The book proposes that primitive life forms must have developed immune systems to counter the harmful effects of natural radioactivity and that low-level radiation from nuclear waste may one day be transformed from trash to treasure. Nature has always been kind to humans. But our self-aggrandizing species has mistaken blessings for disasters and spoiled the otherwise splendid 20th century. Contents:Greenhouse Warming and Nuclear Hazards:Three Smoking Guns Prove the Falsity of Greenhouse WarmingNuclear Waste Disposal, from Trash to TreasureCancer Death Rates of 50 States of US Related to Natural and Nuclear-Bomb-Test-Induced Low Level RadiationGreenhouse Warming:Latent Heat of Melting and Its Importance for Glaciation CyclesOrigin of Ice Ages: Initial Condition Forcing and DynamicsUnraveling a Century's Mystery of the Ice AgesThe Fourth Phase of Water and the Theories of Greenhouse Effects and Ice Age Glacial CyclesResearch Papers on Nuclear Hazards:The Ultimate Direct Measurement of Low Level Radiation EffectsLong Life Expectancy as the Beneficial Effect of Low RadiationLow Level Radiation Extends Life Span by Cutting Death Rates of Disease Including Heart Disease, Cancer, Stroke, etc.Reexamining Nuclear Energy Safety Readership: Undergraduates and general public. Keywords:Greenhouse Effect;Global Warming;Environment;Energy Nuclear;Cancer;Ageing;Ice Age;Climate;Thermodynamics

This unique book presents a nontechnical view of the history of mechanics, from the Big Bang to present day. The impact of mechanics on the evolution of a variety of subjects is vividly illustrated, including astronomy, geology, astrophysics, anthropology, archeology, ancient history, Renaissance art, music, meteorology, modern structural engineering, mathematics, medicine, warfare, and sports. While enormous in scope, the subject matter is covered (with ample photographic support) at a level designed to capture the interest of both the learned and the curious. The book concludes with a creative and thoughtful examination of the current state of mechanics and possibilities for the future of mechanics.

Jagranjosh's Banking & SSC e-book April 2021 eBook is a one-stop solution to help students preparing for the upcoming SSC JE & RBI Grade B 2021 Exams. All the chapters of this e-book are reader-friendly and easy to understand. Our team at Jagranjosh.com wishes all the very best to the aspirants of Banking & SSC Exams. Key Feature Banking & SSC e-book April 2021 is prepared by subject matter expert team of Jagranjosh.com, who worked up the best to come up with this all-inclusive preparation package for SSC JE & RBI Grade B 2021 Exams. The book includes a preparation strategy for SSC JE & RBI Grade B 2021 Exams. This e-book also contains Important Topics of SSC JE Exam. Apart from this, the book also has extensive coverage of important events throughout the month.
