Clinical Medical Assisting begins with Kinn! Elsevier's Kinn's The Clinical Medical Assistant, 13th Edition provides you with the real-world clinical skills that are essential to working in the modern medical office. An applied learning approach to the MA curriculum is threaded throughout each chapter to help you further develop the tactile and critical thinking skills necessary to assist with medications, diagnostic procedures, and surgeries. Paired with our adaptive solutions, real-world simulations, EHR, documentation and HESI remediation and assessment, you will learn the leading skills of modern clinical medical assisting in the classroom! Applied approach to learning helps you use what you've learned in the clinical setting. Clinical procedures integrated into the TOC provide you with a quick reference. Detailed learning objectives and vocabulary with definitions highlight what's important in each chapter. Step-by-step procedures explain complex conditions and abstract concepts. Rationales for each procedure clarify the need for each step and explains why it's being performed. Critical thinking applications test your understanding of the content. Patient education and legal and ethical issues are described in relation to the clinical Medical Assistant's job. Threaded case scenarios help you apply concepts to realistic clinical situations. Portfolio builder helps you demonstrate clinical proficiency to potential employers. NEW! Chapter on The Health Record reviews how you will maintain and interact with the medical record. NEW! Chapter on Competency-Based Education helps you confidently prepare for today's competitive job market. NEW! Clinical procedure videos help you to visualize and review key procedures.

Get unrivaled practice mastering all the concepts and skills necessary for success in today's fast-paced medical office with the Study Guide for Today's Medical Assistant. Filled with assignment sheets, pre- and post-tests, vocabulary practice, short-answer review questions, critical thinking activities, competency practice, and evaluations for each chapter, this comprehensive study guide is the perfect hands-on resource to jump-start your medical assisting expertise. The 4th Edition features enhanced coverage of healthcare law, certification, electronic health records, motivational interviewing, office management, and more, as well as additional procedures to address behavior-based competencies and more EHR practice. Expanded application to SimChart for the Medical Office provides more realistic practice with EHRs. Consistent and meticulous coverage throughout all elements of the text and its learning package provide reliable content and unparalleled accuracy on the responsibilities of the modern medical assistant. Chapter pre-tests and post-tests enable you to easily gauge how much content you have mastered. Critical thinking activities encourage you to develop the judgment needed for real-life medical office situations. Laboratory assignments at the beginning of each chapter offer a guide on each chapter's procedures. Practice for Competency checklists for each procedure help you practice each of your clinical skills. Perforated pages offer on-the-go review and enable easy assignment submission. NEW! New content on healthcare trends and laws, certification for Medical Assistants, electronic health records, motivational interviewing, office management, and more ensures that you have the latest information needed to obtain employment and long-term success on the job. NEW! Competency evaluation for new procedures addresses affective (behavior-based) MAERB competencies to provide example-driven teaching and learning tools.

Now in its 3rd Edition, this popular text gives office personnel just what they need to perform all of their nonclinical tasks with greater skill and efficiency. You get the background to better understand your role and responsibilities... as well as current, step-by-step advice on billing, scheduling, making travel arrangements, ordering supplies - any duty from receptionist to manager you might have in your doctor's office. Includes the latest on... using computers in medical practice; handling medicolegal issues; communicating more effectively with physicians patients, and peers; and transcribing reports... everything you need to be good at your job.

Use this study tool to master the content from your Today's Medical Assistant: Clinical & Administrative Procedures, 2nd Edition textbook! Corresponding to the chapters in the textbook by Kathy Bonewit-West, Sue Hunt, and Edith Applegate, this study guide helps you understand and apply the material with practical exercises, activities, flashcards, checklists, review questions, and more. Chapter assignment tables at the beginning of chapters guide you through textbook and study guide assignments, and make it easy to track your progress. Laboratory assignment tables list the procedures in each chapter, including study guide page number references, and indicate the procedures shown on the DVDs. A pretest and posttest in each chapter measure your understanding with 10 true/false questions. Key term assessments include exercises to help in reviewing and mastering new vocabulary. Evaluation of Learning questions let you assess your understanding, evaluate progress, and prepare for the certification examination. Critical thinking activities let you apply your knowledge to real-life situations. Practice for Competency sections offer extra practice on clinical skills presented in the book. Evaluation of Competency checklists evaluate your performance versus stated objectives and updated CAAHEP performance standards. Updated content includes exercises for topics such as electronic medical records, advanced directives, HIPAA, emergency preparedness, ICD-10 coding, documentation, medical office technology, medical asepsis, vital signs, pediatrics, colonoscopy, IV therapy, and CLIA waived tests. New activities provide practice for the Today's Medical Assistant textbook's newest and most up-to-date content. New Emergency Protective Practices for the Medical Office chapter includes procedures, critical thinking questions, and other activities to help you understand emergency preparedness. New Wheelchair Transfer Procedure and Evaluation of Competency checklist includes a step-by-step guide to this important procedure. New video evaluation worksheets on the Evolve companion website reinforce the procedures demonstrated on the textbook DVDs. New practicum and externship activities on Evolve provide practice with real-world scenarios.

This competency-based learning system covers the administrative, clinical, and general areas necessary for entry-level employment as identified by the medical assistant role delineation study issued by the American Association of Medical Assistants. A listing of role delineation areas in each unit and in Appendix A make it easy to locate specific skills within each competency. A unit on related therapies presents information on complementary and alternative treatments.
