After the Three Mile Island nuclear meltdown in 1979, Perrow became interested in how simple human errors spiral out of control in complex technological systems. For Perrow, Three Mile Island was a...

Meltdown: Why our systems fail and what we can do about it ...

In fact, safety systems are the biggest single source of catastrophic failure in complex, tightly coupled systems. When building systems, a way to reduce complexity is to add transparency. Transparency makes it hard for us to do the wrong thing and makes it easy to realise if we have done a mistake.

Meltdown: Why Our Systems Fail and What We Can Do about It ...

I recently had a chance to review Meltdown: Why Our Systems Fail and What We Can Do About It, which takes a critical look at several examples of catastrophic failure in many differing areas and applies Perrow 's theories of Normal Accidents in order to address these systemic problems we face regularly. A lot of the background in human factors I ' m familiar with takes a different tact from Perrow ' s, but I was hoping for surprising new insights into areas I hadn ' t yet considered when ...
