Explores the psychology behind style choices which explains why women do not dress their age, wear all the clothing they purchase, or dress to flatter their body shape, in order to help them develop a personal style and make life changes.

What do our clothes say about us? How do the clothes we wear affect our moods and emotions? How does the fashion industry encourage us to aspire to look in a certain way? The Psychology of Fashion offers an insightful introduction to the exciting and dynamic world of fashion in relation to human behaviour, from how clothing can affect our cognitive processes to the way retail environments manipulate consumer behaviour. The book explores how fashion design can impact healthy body image, how psychology can inform a more sustainable perspective on the

it's downright annoying. When a little girl tires of being treated like she's TOO little, she sets out to prove to her family that she can do ANYTHING she puts her mind to including putting on a colorful, twinkly, silky sari. Sure, they're long and unwieldy—but that only means her family will be even more impressed when she puts it on all by herself. Naturally, there are some hiccups along the way, but she discovers that she's not the only one in her family who has set out with something to prove, with hilariously chaotic results. That's what photo albums are for!

THE NEW YORK TIMES BESTSELLER *Women in Clothes* is a book unlike any other. It is essentially a conversation among hundreds of women of all nationalities—famous, anonymous, religious, secular, married, single, young, old—on the subject of clothing, and how the garments we put on every day define and shape our lives. It began with a survey. The editors composed a list of more than fifty questions designed to prompt women to think more deeply about their personal style. Writers, activists, and artists including Cindy Sherman, Kim Gordon, Kalpona Akter, Sarah Nicole Prickett, Tavi Gevinson, Miranda July, Roxane Gay, Lena Dunham, and Molly Ringwald answered these questions with photographs, interviews, personal testimonies, and illustrations. Even our most basic clothing choices can give us confidence, show the connection between our appearance and our habits of mind,

express our values and our politics, bond us with our friends, or function as armor or disguise. They are the tools we use to reinvent ourselves and to transform how others see us. *Women in Clothes* embraces the complexity of women's style decisions, revealing the sometimes funny, sometimes strange, always thoughtful impulses that influence our daily ritual of getting dressed.
