If the style appeal of Fifties Teds and Sixties hippies depends heavily upon nostalgia, Mods - always the essence of cool - looked hip from the start. Terry Rawlings' book perfectly captures the look and soul of Mod. Tracing its roots back to London's Soho of the Forties, he unearths every impulse and expression of the only surviving British youth movement that can be looked back on "without embarrassment".

How to make a fairer, more just city From the grandiose histories of monumental state building projects to the minutiae of street signs and corner cafés, from the rebuilding of capital cities to the provision of the humble public toilet, Clean Living under Difficult Circumstances argues for the city as a socialist project. This essay collection spans a period from immediately before the 2008 financial crash to the year of the pandemic. Against the business-as-usual responses to both crises, Owen Hatherley outlines a vision of the city as both a venue for political debate and dispute as well as a space of everyday experience, one that we shape as much as it shapes us. Incorporated here are the genres of memoir, history, music and film criticism, as well as portraits of figures who have inspired new ways of looking at cities, such as the architect Zaha Hadid, the activist and urbanist Jane Jacobs, and thinkers such as Mark Fisher and Adam Curtis. Throughout these pieces, Hatherley argues that the only way out of our difficult circumstances is to imagine and try to construct a better modernity.

The oversized, heavily illustrated celebration of all things Mod

The Who were one of the most memorable and influential of the 1960s British Invasion bands—memorable because of their loudness and because they destroyed instruments during performances, and influential because of their success in crafting "Power Pop" singles like "My Generation" and "I Can See for Miles," long-playing albums *Live at Leeds* and *Who's Next*, and the "rock operas" *Tommy* and *Quadrophenia*. The themes that principal songwriter Pete Townshend imparted into The Who's music drew upon the group's mostly working-class London upbringings and early Mod audiences: frustration, angst, irony, and a youthful inclination to lash out. Like some of his rock and roll contemporaries, Townshend was also affected by religious ideas coming from India and the existential dread he felt about the possibility of nuclear war. During a career that spanned three decades, The Who gave their fans and rock critics a lot to think about. The remarkable depth and breadth of The Who's music and their story as one of the most exciting and provocative rock bands over the last half-century are the subjects of the philosophical explorations in this collection.

Studienarbeit aus dem Jahr 2009 im Fachbereich Kulturwissenschaften - Europa, Note: 1,2, Westfälische Wilhelms-Universität Münster (Seminar für Volkskunde / Europäische Ethnologie), Veranstaltung: Jugendszenen als Hort der Unruhe, Sprache: Deutsch, Abstract: Die Mod-Kultur im England der 60er Jahre gilt gemeinheitlich als eine der wichtigsten Keimzellen moderner Jugendkultur. Das Mod-Phänomen ist Ausdruck und zugleich ein treibender Motor der umwälzenden Kräfte, die in jener Zeit das bröckelnde Empire erschüttern. "Clean Living under difficult circumstances" - dieser Ausspruch von Peter Meaden, dem früheren Manager von The Who, bringt den Lebensstil der Mods auf den Punkt. Die Arbeit beschäftigt sich deshalb nicht nur deskriptiv, sondern vor allem in kultur- und sozialwissenschaftlicher Analyse mit der Entstehung, den Eigenarten und nicht zuletzt der Musik dieser spannenden und immer noch nachwirkenden Szene.

The Peacock Revolution in menswear of the 1960s came as a profound shock to much of America. Men's long hair and vividly colored, sexualized clothes challenged long established traditions of masculine identity. Peacock Revolution is an in-depth study of how radical changes in men's clothing reflected, and contributed to, the changing ideas of American manhood initiated by a 'youthquake' of rebellious baby boomers coming of age in an era of social revolutions. Featuring a detailed examination of the diverse socio-cultural and socio-political movements of the era, the book examines how those dissents and advocacies influenced the youthquake generation's choices in dress and ideas of masculinity. Daniel Delis Hill provides a thorough chronicle of the peacock fashions of the time, beginning with the mod looks of the British Invasion in the early 1960s, through the counterculture street styles and the mass-market trends they inspired, and concluding with the dress-for-success menswear revivals of the 1970s Me-Decade.

A lot of academic writing on Mod culture has focused on the Mods' emergence in London in the late 1950s and their cultural practices. And it has also dealt with the role of the tabloid papers in creating an unprecedented hysteria, when Mods and Rockers attacked each other at English seaside resorts on Easter and Whitsun 1964. The participants' opinions, however, have rarely been included. Since 1978/79 several countries have seen a Mod revival. It is therefore astonishing that only few more recent academic work has been interested in how the culture is lived today. Whereas these authors mainly concentrate on the description of local scenes, "March of the Mods" is different: it sheds light on what Mod means to its participants. Not only in its mother country, but also in other parts of Europe, the US and Japan as well as in some Asian and Latin American countries. It is the first study of its kind to show how the image of Mod has changed in the media throughout the last forty years. And how Mods make use of the media themselves - especially the Internet. "March of the Mods" is the result of Christiane Deibel's extensive research between 2005 and 2009 and is attached to the areas of English, cultural and media studies as well as computer mediated communication. Despite her insider status, the author manages to make a differentiated yet inspiring contribution to the discussion of subcultural formations in this highly readable book.

A comedic romp through one man's life in the Loire Valley, France Comedian, mod, and professional grump Ian Moore has had enough. Tired of being unable to park anywhere near his cramped house in a noisy town he doesn't like, he hatches a plan to move his wife and young son to a remote corner of the Loire Valley in search of serenity and space. Several years later, Ian finds himself up to his neck in bilingual offspring, feral cats, promiscuous horses, dysfunctional spaniels, and needy hens; he's wrestling with electric fences, a foreign language, a mountain of animal waste, and a wife who collects livestock like there's a biblical flood on the horizon, all while trying not to dirty his loafers. But despite the ups, downs, and increasing demands of Ian's showbiz career, the Moore family persevere to create a unique, colorful, and ultimately rewarding life in their new home—à la campagne and à la mod!

Drawing from a variety of sources from ageing research, history and gender studies, this book is a rich exploration of the baby boomers - those coming of age in the sixties and now entering old age - the influences that have shaped how they perceive ageing appearance, define ageing and beauty, and the meaning of appearance, beauty, and identity.
