This book examines the shape, composition, and practices of the United States political media landscape. It explores the roots of the current epistemic crisis in political communication with a focus on the remarkable 2016 U.S. president election culminating in the victory of Donald Trump and the first year of his presidency. The authors present a detailed map of the American political media ...

Top ten reading list: disinformation books | E&T Magazine

Benkler et al. (2018) argue that social media are not the main culprit of the current mis/disinformation marketplace but, rather, the seeds of disinformation and propaganda in media planted long before. Using network analysis and case studies of news coverage of Clinton scandals like PizzaGate, the Trump-Russia investigation, and politically divisive issues like immigration, they find that the right-wing media ecosystem (from more extremist news organizations like Breitbart and The Gateway ...
