## **Non Pharmacological Treatment Of Affective Disorders [PDF]**

Although many non-pharmacological treatments have reported benefits in multiple research studies, there is a need for further reliable and valid data before the efficacy of these approaches is more widely recognised. Traditionally, cognitive problems have been the main focus of interest in treatment and research for people with dementia.

## **Non-pharmacological interventions in dementia**

Here, we will discuss the contribution of non-pharmacological aspects of management to fast, effective and safe treatment of severe depression. We will also complete our review of this subject by examining the efficacy of some emerging therapeutic interventions for severe depression.
