Spanning over 60 years of military leadership in India, this unique book brings to life the human side of twelve exceptional military leaders. Unlike traditional biographies of combat leaders which focus primarily on military operations or regimental histories, the author concentrates on personal accounts, anecdotes and reminiscences in order to highlight these leaders' personalities, and to draw out the human face behind the military facade. The author argues that written records tend to glorify the actions of battalions as well as individuals, magnifying achievements while suppressing the mistakes and glossing over failures. This book, on the other hand, provides a truer picture of the strength of character and convictions of each of these leaders. The book throws new light on many historical events and the role of political leaders during India's fight for independence and the partitioning of the subcontinent. The author gives an overview of India's military history after independence, including major operations such as the wars with China in 1962, and with Pakistan in 1947, 1965 and 1971. He describes many hitherto unknown or little known facts and incidents concerning smaller operations like Nathu La in 1967 and Goa in 1962.

This is a compelling biography of one of India's most controversial and consequential public figures. V.K. Krishna Menon continues to command our attention not just because he was Jawaharlal Nehru's confidant and soulmate but also for many of his own political and literary accomplishments. A relentless crusader for Indian independence in the UK in the 1930s and 1940s, he was a global star at the United Nations in the 1950s before he was forced to resign as defence minister in the wake of the India-China war of 1962. Meticulously researched and based entirely on new archival material, this book reveals Krishna Menon in all his capabilities and contradictions. It is also a rich history of the tumultuous times in which he lived and which he did so much to shape.

Through a detailed analysis of the available cultural and chronological data, this book overturns traditional ideas about the cultural history of India and proposes a different picture instead. The idea of a unilinear development out of Brahmanism, in particular, is challenged.

"The rarest of the species, a genuinely independent-minded Indian intellectual" Times of India In this wide-ranging collection of essays, Ramachandra Guha defends the liberal centre against the dogmas of left and right, and does so with style, depth and polemical verve. Among the subjects on which he turns a critical eye are Hindutva, the Communist left, and the dynasty-obsessed Congress party. Whether writing about politics, profiling individuals or analyzing social trends, Guha displays a masterly touch, confirming his standing as India's most admired historian and public intellectual.
