BTEC First in Principles of Applied Science Study and Exam Practice

First Published in 2010. Routledge is an imprint of Taylor & Francis, an informa company.

This textbook covers the content of the BTEC National care course. t contains 12 units and advice and guidance on completion of the IVA.

Endorsed by Edexcel, the new BTEC First Applied Science Unit 1 revision guide is perfect for supporting the new externally assessed unit. Includes clear and concise revision notes. Maths skills sections support the mathematical element of the specification. Summary and exam-style questions provide plenty of practice opportunities, with questions clearly differentiated. "Bump up your grade" sections provide valuable hints for the exam.

This is the core textbook for the BTEC National in Health Studies which runs from 2002. Written at the right level for BTEC National students, the text is presented in an accessible and student-friendly style with plenty of case studies, tables and illustrations throughout.

Help your students gain the academic expertise and employability skills needed for further progression in education or the workplace with this textbook, fully updated to reflect the new structure and content of the 2016 Level 3 BTEC qualification. - Prepare your students for new external assessment requirements with teaching guidance and tips - Contextualise knowledge and build practical understanding of concepts with case studies - Provide opportunities to stretch and challenge Distinction students - Help students prepare for assignments with activities linked to assessment criteria - Written by expert author team Jennifer Stafford-Brown and Simon Rea

This student book supports the level 1/level 2 BTEC First Award in Applied Science - Principles of Applied Science NQF specification for first teaching from September 2012. The book covers all four mandatory units so learners have relevant and specific content to complete the new 2012 award.

This Revision Workbook is specifically written for the externally assessed Unit 1: Principles of Science in Award 1 of the Level 2 BTEC Firsts in Applied Science.

BTEC First in Principles of Applied Science Study and Exam Practice

Fundamental Electrical and Electronic Principles covers the essential principles that form the foundations for electrical and electronic engineering courses. The coverage of this new edition has been carefully brought in line with the core unit 'Electrical and Electronic Principles' of the 2007 BTEC National Engineering specification from Edexcel. As the book follows a logical topic progression rather than a particular syllabus, it is also suitable for other Level 3 students on vocational courses such as Vocational AS/A Level, City & Guilds courses and NVQs, as well as those taking foundation courses at pre-degree level including HNC/HND. Each chapter starts with learning outcomes tied to the syllabus. All theory is explained in detail and backed up with numerous worked examples. Students can test their understanding with end of chapter assignment questions for which answers are provided. The book also includes suggested practical assignments and handy summaries of equations. In this new edition, the layout has been improved and colour has been added to make the book more accessible for students. The textbook is supported with a free companion website featuring supplementary worked examples and additional chapters.http://books.elsevier.com/companions/9780750687379 * Full coverage of unit 'Electrical and Electronic Principles' of the 2007 BTEC National Engineering specification * Easy-to-understand, colour text with lots of worked examples that reinforce the theory covered * Free companion website with additional worked examples and chapters
