Understand American politics from past to present. American Government: Roots and Reform is guided by the belief that students must first understand the origins of American government in order to understand the issues facing the United States today. This bestselling text offers the strongest coverage of history and current events to study present political structures and behaviors in full constitutional and historical context. American Government: Roots and Reform not only helps students learn how our government evolved and how they can become more informed citizens but it also encourages them to discover that politics can be -- and most often is -- a good thing. MyPoliSciLab is an integral part of the O'Connor program. Key learning applications include MyPoliSciLab Video Series, Explorer and Simulations. - Publisher.

Our American Government textbook adheres to the scope and sequence of introductory American government courses nationwide. We have endeavored to make the workings of American Government interesting and accessible to students while maintaining the conceptual coverage and rigor inherent in the subject at the college level. With this objective in mind, the content of this textbook has been developed and arranged to provide a logical progression from the fundamental principles of institutional design at the founding, to avenues of political participation, to thorough coverage of the political structures that constitute American government. The book builds upon what students have already learned and emphasizes connections between topics as well as between theory and applications. The goal of each section is to enable students not just to recognize concepts, but to work with them in ways that will be useful in later courses, future careers, and as engaged citizens. The organization and pedagogical features were developed and vetted with feedback from American government instructors dedicated to the project.

The Basics of American Government is a collaborative effort among eight current and one former faculty members in the Departments of Political Science and Criminal Justice at University of North Georgia. The purpose of this book is to offer a no-frills, low-cost, yet comprehensive overview of the American political system for students taking introductory courses in American national government. Furthermore, the work combines the best aspects of both a traditional textbook and a reader in that most chapters offer a piece of original scholarship as a case study to bolster or reinforce the material presented in the chapter. In addition, many chapters present a civic engagement-type exercise and discussion questions intended to challenge, engage, and foster student participation in the political system. The authors undertook this project for several reasons, most notably the high costs of textbooks for students and the lack of college-level scholarship found in most American Government texts. This 375-page, peer-reviewed, edited book that combines traditional material with original scholarship will cost students \$27.99, well below market standards. All of the authors are experienced classroom instructors, subject matter experts, and published researchers in the field of American politics.

For today's busy student, we've created a new line of highly portable books at affordable prices. Each title in the Books à la Carte Plus program features the exact same content from our traditional textbook in a convenient notebook-ready, loose-leaf version -- allowing students to take only what they need to class. As an added bonus, each Books à la Carte Plus edition is accompanied by an access code to all of the resources found in one of our best-selling multimedia products. Best of all? Our Books à la Carte Plus titles cost less than a used textbook! Guided by the belief that students must first understand the origins of American government to fully understand the issues facing the United States today, this market-leading text offers the strongest coverage of both history and current events of any college textbook devoted to American politics. From hallmark features like " The Living Constitution " to new features like the illustrated historical timelines,American Government: Continuity and Changeprovides the historical context students need to understand our government and the most crucial and controversial issues affecting the nation in the 21st century. The Texas edition of this classic text features the exact same coverage as the comprehensive version but with 7 additional chapters devoted to Texas politics. This bestselling book has been extensively revised to provide in-depth coverage of the 2008 presidential and congressional elections, President George W. Bush ' s second administration and the 110thCongress, continued controversies related to the wars in Iraq and Afghanistan and the war on terrorism, and domestic concerns related to rising gas and food prices and the subprime mortgage crisis.

Guided by the belief that students must first understand how American government developed to fully understand the issues facing the United States in the 21st century, O'Connor/Sabato offers the strongest coverage of both history and current events of any college textbook devoted to American politics. This best-selling book provides the historical context students need to understand American government and the most crucial and controversial issues affecting the nation. O'Connor/Sabato has been extensively revised to provide the most in-depth and current coverage of the 2006 midterm elections, the second George W. Bush administration, the Iraq War, and increasing controversies related to the conduct of the war on terrorism, including renewed calls for additional congressional oversight of the Executive Branch. The new edition also emphasizes the extent to which shared American values shape and affect policy and influence key political conflicts.
