A brief economic history of post 1945 world. A brief economic history of England Part 2 The long unwinding road. In the early 1970s and possibly even sooner, it became apparent that the accepted 'model' of post war growth had within it a fundamental problem. This rested on what some of you will know as the Phillip's Curve, which had allowed politicians and planners to target a specific level of price inflation against an accepted level of unemployment.

Post-war America was a time of economic growth that saw Americans spending vast amounts of money on consumer goods and services including fashion. Because the American economy was doing so well, consumers didn't mind spending extra money on more expensive clothing, especially in New York City, which had already been defined as the fashion ...

The International Political Economy Since World War II Joseph M. Grieco Duke University Prepared for the CIAO Curriculum Case Study Project October 2000 I. Introduction. A defining characteristic of the post-World War II era has been the dramatic increase in economic integration among the liberal capitalist countries, an increasing number of developing countries, and, during the past decade, a number of former communist nations that are undertaking a transition to more open markets.

~~The International Political Economy Since World War II~~

The nation's gross national product rose from about \$200,000 million in 1940 to \$300,000 million in 1950 and to more than \$500,000 million in 1960. At the same time, the jump in post-war births, known as the "baby boom," increased the number of consumers. More and more Americans joined the middle class. The Military Industrial Complex

~~The Post-War Economic Boom After WWII~~

Hegemony emerged as an analytical term to conceptualize different historical periods out of the combined post-1945 historical context of two key events: the dissolution of an international political order founded upon European colonial empires, and the establishment and evolution of a postwar liberal international economy under U.S. leadership.
