Published by Sinauer Associates, an imprint of Oxford University Press. *Sensation & Perception* introduces students to their own senses, emphasizing human sensory and perceptual experience and the basic neuroscientific underpinnings of that experience. The authors, specialists in their respective domains, strive to spread their enthusiasm for fundamental questions about the human senses and the impact that answers to those questions can have on medical and societal issues.

lead to academic success! As the stakes on high-profile student tests such as the SAT continue to rise, student preparedness is becoming increasingly important. As a result, helping students do well on tests and succeed in school has become a top priority for teachers. This indispensable guide responds to this need by providing resources to promote content learning and test-taking abilities in middle and secondary school students. This practical text provides charts, checklists, Internet resources, and sample exercises for teachers to use with students, plus a final test covering content from each chapter. Using research-based practices, educators will be able to help students develop
