As his friends buckle under pressure from their own Houses to choose sides, his only chance is to find allies among his enemies and keep his secrets closer than ever—including his secret relationship with lone. It all comes down to whether an adolescent giant Automaton, a truly mad, Mad Scientist, a surly Necromancer, a Banshee's granddaughter, and a reluctant furry monster straight from under your little sister's bed can manage not to kill each other - or, at least, quit fighting over the tele-privilege-schedule long enough to get the job done! Not likely.
