Consumer Behavior 2014 assesses how consumer spending is distributed and behaviors that affect spending. This handbook includes presents dozens of surveys analyzing consumer spending characteristics, behavioral responses, and preferences. Easy-to-read summaries of current research and other information useful for retailers, marketers, advertisers, and business consultants are presented. While there are other publications focusing on general consumer behavioral topics, Consumer Behavior 2014 is the only resource that integrates the full spectrum of applied consumer psychology, demographics, and purchasing influences with major consumer surveys. (Annual)

About the Income Tax Law & Accounts A.Y 2019-20 Book Largest Selling Book since 1964 and over the last 55 years of its existence, Income Tax Law and Practice Assessment has established a reputation for itself as the most definitive work on the subject of income tax. A simplified, systematic approach to the understanding of a complex subject written in a unique, simple and easy to underatand language. Each topic, after a theoretical exposition, is followed by illustrations the students to master the practical application of Income Tax Law. User-friendly examination-oriented style facilitating easy comprehension of each topic. Solved Illustrations and Questions for exercise are largest in number in comparison to other books on income tax. Unsurpassed for over 55 years. The book is trusted and relied upon for accuracy and reliability. Mistakeless printing on paper of superior quality at a moderate price. Questions from the latest Examination Papers of various universities have been included in the revised edition of Income Tax Law And Practice Assessment At the end of each chapter, Short Answer, Objective Type, and Short Numerical Questions have been added with answers. A unique feature of the revised edition is that Section-wise Index has been incorporated.

Decision-making is a pivotal function of any manager. A knowledge of Accounting, insofar as it affects decision-making, is very important for a manager. And very often, students find Accounting as one of the 'tough' subjects to handle. This book strives to make Accounting intelligible and easily comprehensible to students. The text gives a comprehensive coverage of the three branches of Accounting - Financial Accounting, Management Accounting, and Cost Accounting. It focuses on the various methods and techniques followed in the Management Reporting System. The text deals, in detail, with various accounting transaction procedures, methods of costing, ratio analysis, budgeting, forecasting, accounting errors, funds flow and cash flow statements, trial balance and balance sheet, and so on. It equips the students with the knowledge in the preparation, analysis, evaluation, and interpretation of financial statements, which will enrich their managerial competence and decision-making skills. KEY FEATURES ? Emphasises the various accounting and decision-making techniques. ? Provides a number of problems and their solutions, besides giving notes, working notes, and exercises, to help the students understand the concepts better. This book is intended as a text for the postgraduate students of Management (MBA/MIB), financial courses (MFC), and undergraduate and postgraduate students of Commerce and those pursuing MCA. In addition, the book will be very useful to practising managers who wish to develop effective and result-oriented decision-making skills.

TRB's Transportation Research Record: Journal of the Transportation Research Board, No. 2136 includes 11 papers that explore aggregated and disaggregated Poisson-gamma models for modeling crash data; analyzing performance-based contracts with hazard-based duration and zero-inflated random parameters Poisson models; Poisson-based wavelet shrinkage site selection method for selecting crash data collection sites; Bayesian multinomial logit for modeling route choice; Bayesian mixture model for estimating freeway travel time distributions; dynamic spatial ordered probit model for analysis of ozone concentration patterns; investigating the variability of daily traffic counts with the ARIMAX and SARIMAX models; and using lattice data analysis, network K-functions, and geographic information system software to study ice-related crashes. This issue of the TRR also examines using Bayesian statistics to identify highway sections with atypically high rates of median-crossing crashes, Bayesian multivariate Poisson lognormal models for crash severity modeling and site ranking, and spatial autocorrelation and Bayesian spatial statistical method for analyzing intersections prone to injury crashes.

Kelsen, Hans. Pure Theory of Law. Translation from the Second German Edition by Max Knight. Berkeley: University of California Press, 1967. x, 356 pp. Reprinted 2005 by The Lawbook Exchange, Ltd. ISBN 1-58477-578-5. Paperbound. \$36.95 * Second revised and enlarged edition, a complete revision of the first edition published in 1934. A landmark in the development of modern jurisprudence, the pure theory of law defines law as a system of coercive norms created by the state that rests on the validity of a generally accepted Grundnorm, or basic norm, such as the supremacy of the Constitution. Entirely self-supporting, it rejects any concept derived from metaphysics, politics, ethics, sociology, or the natural sciences. Beginning with the medieval reception of Roman law, traditional jurisprudence has maintained a dual system of "subjective" law (the rights of a person) and "objective" law (the system of norms). Throughout history this dualism has been a useful tool for putting the law in the service of politics, especially by rulers or dominant political parties. The pure theory of law destroys this dualism by replacing it with a unitary system of objective positive law that is insulated from political manipulation. Possibly the most influential jurispudent of the twentieth century, Hans Kelsen [1881-1973] was legal adviser to Austria's last emperox and its first republican government, the founder and permanent advisor of the Supreme Constitutional Court of Austria, and the author of Austria's Constitution, which was enacted in 1920, abolished during the Anschluss, and restored in 1945. The author of more than forty books on law and legal philosophy, he is best known for this work and General Theory of Law and State. Also active as a teacher in Europe and the United States, he was Dean of the Law Faculty of the University of Vienna and taught at the universities of Cologne and Prague, the Institute of International Studies in Geneva, Harvard, Wellesley, the University of California at Berkeley, and the Naval War College.Also available in cloth.
