SOA is based on some key principles which are mentioned below . Standardized Service Contract - Services adhere to a service description. A service must have some sort of description which describes what the service is about. This makes it easier for client applications to understand what the service does. Loose Coupling Less dependency on each other. This is one of the main characteristics of web services which just states that there should be as less dependency as possible between the ...

SOA (Service Oriented Architecture) Principles
The key to succeeding with service-oriented architecture (SOA) is in comprehending the meaning and significance of its most fundamental building block: the service. It is through an understanding of service design that truly service-oriented solution logic can be created in support of achieving the strategic goals associated with SOA and service-oriented computing.

SOA Principles of Service Design ebook | Kortext.com
The service-orientation design principles help in distinguishing a service-oriented solution from a traditional object-oriented solution by promoting distinct design characteristics. The presence of these characteristics in a service-oriented solution greatly improves the chances of realizing the aforementioned goals and benefits.

Service-orientation design principles - Wikipedia
Service-oriented architecture is a style of software design where services are provided to the other components by application components, through a communication protocol over a network. A SOA service is a discrete unit of functionality that can be accessed remotely and acted upon and updated independently, such as retrieving a credit card statement online. SOA is also intended to be independent of vendors, products and technologies. A service has four properties according to one of many defini

Service-oriented architecture - Wikipedia
The key to succeeding with service-oriented architecture (SOA) is in comprehending the meaning and significance of its most fundamental building block: the service.
