exercises help you apply your knowledge to real-world scenarios.

Leifer's Study Guide for Introduction to Maternity and Pediatric Nursing is a rich resource that enhances your comprehension and application of material from every chapter of the textbook. With a variety of learning activities, critical thinking exercises, case studies, and review questions, this study guide reinforces your mastery of the essential maternity and pediatric nursing concepts and skills you need to pass the NCLEX-PN® Examination and succeed in your nursing career. NCLEX exam-style multiple-choice review questions at the end of each chapter test basic chapter knowledge as well as ask for appropriate nursing actions, what the nurse should expect in terms of medical care of the patient, and what complications the patient is at risk of developing. Case Studies and Applying Knowledge activities provide additional opportunities to apply learned information to clinical care. Thinking Critically activities require you to apply what you've learned in the textbook to new situations and draw conclusions based on that knowledge. Learning activities include matching, labeling, and completion exercises to help you learn basic concepts of maternity and pediatric nursing. Crossword puzzles in selected chapters are a nice way to change up the format when testing comprehension of terms and concepts. Answer key is located on the student's Evolve website. Several Thinking Critically sections and case studies with critical thinking questions have been added. Alternate-item format questions are included in the review questions for the NCLEX® Examination.

Master content and apply knowledge from Maternal Child Nursing Care, 6th Edition with this corresponding Study Guide. In addition to reviewing content from the text, it encourages you to think critically and use the text more effectively. This comprehensive workbook is filled with case-based activities, as well as review questions that provide you with plenty of opportunities to assess your knowledge. Updated content throughout corresponds to new features and chapters of the text. Reviewing Key Concepts and Content questions in various formats give you ample opportunities to assess your knowledge and comprehension of information covered in the text. Activities, including matching, fill-in-the-blank, true/false, short answer, and multiple choice, help you identify the core content of the chapter and test your understanding upon completion of reading the chapter. Learning Key Terms matching and fill-in-the-blank questions let you test your ability to define all key terms highlighted in the corresponding textbook chapter. Thinking Critically case-based activities require you to apply the concepts found in the chapters to solve problems, make decisions concerning care management, and provide responses to patient questions and concerns. Answer key at the end of the book includes answers to all questions. NEW! Updated content throughout corresponds to new features and chapters of the text.
