Language is at the heart of the learning process. We learn through language. Our knowledge about the world is constructed in language—the worlds of home and the community, the worlds of school subjects, the worlds of literature, the worlds of the workplace, and so on. It is through language that we interact with others and build our identities.

*Teaching Language in Context - Oxford University Press*

This context will naturally be found in the language you are teaching. However, it will also arise from the circumstances in which you are teaching that language. You weave together the vocabulary, grammar, pronunciation, culture and usage of the language you are teaching. This combined context has to make sense to your students, encourage and excite them to reach beyond irregular verb memorization and grammar rules.

From a teaching perspective, the value of a strong context cannot be underestimated when presenting new language to students. Contextualising early on in a lesson, through the use of situations, topics, images and talking points, creates a frame of reference for students to refer to when any new content comes at them.

*The importance of context for English teaching: experience ...*

Context provides the real-life situations in which language is used. Setting context allows your students to get at least a simulation of real-life practice. It may not be practical to take them on a trip to experience the target language in person, but you can give them a context that prepares them for the day when they might do just that. Context is the most authentic motivator in the language classroom.

Different teaching contexts present different notions of the process of learning to teach (Zeichner and Grant 1981). Campus-based teaching experiences (e.g., in a language center) may be quite different to those occurring in schools off campus. The students may be undergraduate international students rather than immigrants.

*Understanding the Teaching Context (Chapter 3) - Practice ...*

Contextualising language tries to give real communicative value to the language that learners meet. The context can help learners remember the language and recall it at a later date. Learners can use natural learning strategies to help them understand contextualised language, such as guessing meaning from context.
