In The Rational Peasant, Popkin attempts to discredit the common assumption of moral economy and impose his own idea of political economy. Moral economists believe that peasant protest is a result of falling below a subsistence level (short-run security), or the loss of traditional institutions that "provided for peasant welfare (long-term security)" which often result as the imposition of a capitalist economy (5).

The Rational Peasant: The Political Economy of Rural Society in Vietnam is a non-fiction book by University of California, San Diego political scientist Samuel L. Popkin. Originally conceived to be a reflection on the Vietnam Revolution, the book introduces the term "political economy" as a new theory of peasant behavior. Popkin surveys the precolonial, colonial, and revolutionary history of Vietnam seeking to understand the impact of outside shocks on peasant communities, and ultimately ...

The level of selective incentives in any peasant upheaval is a function of demand and supply considerations. Peasants demand selective incentives. The suppliers include one or more dissident peasant organizations, the authorities, and the allies of both. A political struggle ensues as the suppliers compete and attempt to monopolize the market.

In this seminar, we will explore political action by the largest group of ordinary people in the world -- peasants. Substantively, our topics will range from "everyday forms of resistance," to nonviolent collective action to outright defiance and insurgency. We will consider work both in the moral economy and the choice-theoretic traditions.
