Being in work greatly reduces the risk of poverty. Nevertheless, in the European Union, 8% of the employed population fell into the category of 'working poor' in 2007, in the sense of having an income below 60% of the national median. The proportion varies markedly across countries and social groups.

Publication Date: 2008 ISBN: 978 1 84720 798 2 Extent: 336 pp. For a long time in-work poverty was not associated with European welfare states. Recently, the topic has gained relevance as welfare state retrenchment and international competition in globalized economies has put increasing pressures on individuals and families. This book provides explanations as to why in-work poverty is high in certain countries and low in others.

*The Working Poor in Europe - Edward Elgar Publishing*

In-work poverty ranges from a low of 4-5 percent of workers in Belgium, and the Netherlands, up to around 14 percent in Greece (see also table 12.2 below). .... While in work-poverty has long ...

*The Working Poor in Europe: Employment, Poverty and ...*

In 2017, 9.4% of all EU-28 workers lived in households that are at risk of poverty, i.e. an alarming 20.5 million persons. Based on the in-depth national contributions prepared by the 35 ESPN Country Teams and an analysis of EU indicators on IWP, this Synthesis Report produced by the ESPN outlines five key findings: The in-work poor represent a substantial group among workers and their numbers continue to grow in many European countries, leading to a polarisation within the EU.

Reassuringly, the very vast majority of employed persons were not poor in Europe and Central Asia (98 per cent) and the Americas (96 per cent) in 2018, while 84 per cent of workers in the Arab States and almost 79 per cent in Asia and the Pacific lived with their families above the poverty line.

*or how a job is no guarantee of decent living conditions*

The rise in atypical and precarious work patterns and a growing polarisation in the labour market between low or unskilled work and high-skilled work have created new poverty risks amongst the employed population. As a result of this trend, the concept of the 'working poor' has become increasingly applicable to social and labour market realities in the EU. Based primarily on a ...
