A stunning investigation of the life and legend of Mexican kingpin Joaquín Archivaldo 'El Chapo' Guzmán Loera, building on Noah Horowitz's revelatory coverage for Rolling Stone of El Chapo's federal drug-trafficking trial. This is the true story of how El Chapo built the world's wealthiest and most powerful drug-trafficking operation, based on months' worth of trial testimony and dozens of interviews with cartel gunmen, Mexican journalists and political figures, Chapo's family members, and the DEA agents who brought him down. Over the course of three decades, El Chapo was responsible for smuggling hundreds of tons of cocaine, marijuana, heroin, meth, and fentanyl around the world, becoming in the process the most celebrated and reviled drug lord since Pablo Escobar. El Chapo waged ruthless wars against his rivals and former allies, plunging vast areas of Mexico into unprecedented levels of violence, even as many in his home state of Sinaloa continued to view him as a hero. This unpundtable book, written by a great new talent, brings El Chapo's exploits into a focus that previous profiles have failed to capture. Horowitz digs in deep beyond the legends and delves into El Chapo's life and legacy—not just the hunt for him, revealing some of the most dramatic and often horrifying moments of his notorious career, including the infamous prison escapes, brutal murders, multi-million-dollar government payoffs, and the paranoia and narcissism that led to his downfall. From the evolution of organized crime in Mexico to the militarization of the drug war to the devastation wrought on both sides of the border by the introduction of synthetic opioids like fentanyl, this book is a gripping and comprehensive work of investigative, on-the-ground reporting.

A memoir about an unusual upbringing in a family fanatically devoted to honesty, and what came next If you're like most people, you probably lied today. It may have been a small one, some insignificant falsehood meant to protect someone's feelings or guard your true thoughts. Now imagine if your parents had raised you to never lie, if they'd ingrained in you a compulsion to never, under any circumstances, withhold the truth or fail to speak your mind. It might be wonderfully freeing. Everyone else might not appreciate it so much. To Be Honest is Michael Leviton's extraordinary account of being raised in a family he calls a [little honesty cult.] For young Michael, his parents' core philosophy felt liberating. He loved [just being honest.] By the time he was twenty-nine years old, Michael had told only three lies (by most people's understanding of the word) in his entire life. But this honesty had consequences—in friendships, on dates, and at job interviews. And when honesty slowly poisoned a great romance, Michael decided there had to be something to lying after all. He set himself the task of learning to be as casually dishonest as the rest of us. To Be Honest is a tender and darkly comic memoir about what it means and how it feels to tell more than the truth.
