I've cooked vegan recipes of a variety of Asian cuisines from several cookbooks and online sources, and this book is noticeably beneath all of them in quality. Overall, the six recipes I've made from it have all been lacking in flavor and have tried to make up for it by smothering the ingredients in oil or soy sauce.

The Asian Vegan Kitchen is a collection of recipes from across Asia, featuring the spices and the many tasty ingredients that have made these cuisines popular world-wide. It caters to the growing segment of people of all ages who have chosen to eschew animal products, yet still want to add some global spice and excitement to their diet. There is one big difference between this and many other vegan cookbooks. These dishes do not use replacement ingredients for traditional recipes. Instead, author Hema Parekh - a

noted teacher of vegetarian cooking styles in Tokyo - has selected recipes that were traditionally vegetarian, and have been enjoyed by diners for decades, even centuries. In doing so, she has had to make only minor changes, if any, for these recipes to be deliciously appealing to everyone: vegan, vegetarian or otherwise. Over 200 dishes have been selected to cover a wide variety of tastes. Here readers will find vegan-ready recipes for everything from Japan's sushi to northern Indian curries, from Vietnamese spring rolls, to red-hot tofu, Chinese-style. Soups, noodle dishes and some desserts are also included. The recipes are simple, with detailed explanations. Also included are over 50 mouth-watering photos and a comprehensive glossary. Vegan cooking just became a lot more interesting. A long-time vegetarian, Hema Parekh has been teaching vegetarian cooking in Tokyo for almost twenty years. She has written two popular books on vegetarian cooking in Japanese - A Touch of Spice and Indian Vegetarian Cooking - and is working on a third. Parekh has lived in Japan for 27 years.

A vegetarian follow-up to the very popular Chinese Soul Food cookbook that includes 75 plant-based comfort food recipes you can make at home. Chinese Soul Food drew cooks into the kitchen with the assurance they could make this cuisine at home. Though a popular cuisine across North America, Chinese food can be a little intimidating. But author Hsiao-Ching Chou's friendly and accessible recipes work for everyone, including average home cooks. In this new collection, you'll find vegetarian recipes for stir-fries, rice and noodle dishes, soups, braises, and pickles. Of course, the book wouldn't be complete without vegetarian versions of Chou's famously delicious dumplings, including soup dumplings and shu mai, as well as other dim sum delights. Separate chapters feature egg and tofu recipes. From Cauliflower with Spiced Shallot Oil to Kung Pao Tofu Puffs, and from Hot and Sour Soup to Ma Po Tofu to Steamed Egg Custard, these recipes will satisfy your every craving for classic Chinese comfort food--and all without meat. You will also find helpful information including essential equipment, core pantry ingredients (with acceptable substitutions), ways to season and maintain a wok, and other practical tips that make this an approachable cookbook. Home cooks are gently guided toward becoming comfortable cooking satisfying Chinese meals. Whether you're a vegetarian or simply reducing the amount of meat in your daily diet, these foolproof recipes are made to be cooked any night of the week. As the author likes to say, any kitchen can be a Chinese kitchen!

For bestselling cookbook author Hetty McKinnon, Asian cooking is personal. McKinnon grew up in a home filled with the aromas, sights, and sounds of her Chinese mother's cooking. These days she strives to recreate those memories for her own family--and yours--with traditional dishes prepared in non-traditional ways. It's a sumptuous collection of creative vegetarian recipes featuring pan-Asian dishes that anyone can prepare using supermarket ingredients. Readers will learn how to make their own kimchi,

chilli oil, knife-cut noodles, and dumplings. They'll learn about the wonder that is rice and discover how Asian-inspired salads are the ultimate crossover food. McKinnon offers tips for stocking your modern Asian pantry and explores the role that sweetness plays in Asian cultures. Her recipes are a celebration of the exciting and delicious possibilities of modern Asian cooking--from Smashed Cucumber Salad with Tahini and Spicy Oil, and Finger-lickin' Good Edamame Beans with Fried Curry Leaves, to Springtime Rolls with Miso Kale Pesto and Tamarind Apple Crisp. Featuring big, powerful flavours created from simple, fresh ingredients, these recipes are firmly rooted in the place where east meets west and where tradition charts the journey to the modern kitchen.

THE INSTANT NEW YORK TIMES BESTSELLER • NAMED ONE OF THE BEST NEW COOKBOOKS OF THE YEAR BY Epicurious • EATER • Stained Page • Infatuation • Spruce Eats • Publisher's Weekly • Food52 • Toronto Star The dazzling debut cookbook from Joanne Lee Molinaro, the home cook and spellbinding storyteller behind the online sensation @thekoreanvegan Joanne Lee Molinaro has captivated millions of fans with her powerfully moving personal tales of love, family, and food. In her debut cookbook, she shares a collection of her favorite Korean dishes, some traditional and some reimaged, as well as poignant narrative snapshots that have shaped her family history. As Joanne reveals, she's often asked, "How can you be vegan and Korean?" Korean cooking is, after all, synonymous with fish sauce and barbecue. And although grilled meat is indeed prevalent in some Korean food, the ingredients that filled out bapsangs on Joanne's table growing up--doenjang (fermented soybean paste), gochujang (chili sauce), dashima (seaweed), and more--are fully plant-based, unbelievably flavorful, and totally Korean. Some of the recipes come straight from her childhood: Jjajangmyun, the rich Korean-Chinese black bean noodles she ate on birthdays, or the humble Gamja Guk, a potato-and-leek soup her father makes. Some pay homage: Chocolate Sweet Potato Cake is an ode to the two foods that saved her mother's life after she fled North Korea. The Korean Vegan Cookbook is a rich portrait of the immigrant experience with life lessons that are universal. It celebrates how deeply food and the ones we love shape our identity.
